(e) Other directorships held in reporting companies naming each company.

Winston F. Garcia	President and General Manager of GSIS; Vice-Chairman of the Board of Trustees of the GSIS; Chairman of GSIS Mutual Fund, Inc.
Alfonso L. Salcedo, Jr.	Director of BPI/MS Insurance Corporation; President and Director of BPI Family Savings Bank, Inc.
Yvonne S. Yuchengco	President and Director of Malayan Insurance Company, Inc., and MICO Equities, Inc.

Mr. Romeo L. Bernardo, Mr. Rizalino Navarro and Mr. Primitivo Cal are currently the Corporation's Independent Directors. To be considered independent directors under IC Circular Letter No. 31-2005, one: (i) has not been an officer or employee of the company for the last three years immediately preceding his term or incumbency; (ii) is not related by consanguinity or affinity to an officer in a senior management position in the company; and (iii) does not provide services, and receives no income for other professional services to the company. The Corporation has no transactions with Lazaro, Bernardo, Tiu & Associates. Neither does the Corporation have transactions with Messrs. Bernardo, Navarro and Cal.

(f) Family Relationship

None of the Corporation's directors or executive officers is related to each other up to the fourth civil degree either by consanguinity or affinity.

(g) Resignation/Re-election

Since the last annual stockholders' meeting of the Corporation, no Director has resigned or declined to stand for reelection to the Board of Directors of the Corporation because of disagreement with the Corporation on any matter relating to the Corporation's operations, policies or practices. The Corporation's former President, Mr. Wilfrido C. Bantayan, however, has retired effective December 31, 2008, on account of the expiration of his contract, and thus, has resigned as a director of the Corporation effective as of December 31, 2008.

(h) Involvement in Legal Proceedings

To the best of the Corporation's knowledge, there has been no occurrence during the past 5 years up to the present date of this Information Statement of any of the following events that are material to an evaluation of the ability and integrity of any director, any nominee for election as director, executive officer, or controlling person of the Corporation:

- Any bankruptcy petition filed by or against any business of which the person was a general partner or executive officer, either at the time of the bankruptcy or within 2 years prior to that time;
- Any conviction by final judgment, including the nature of the offense, in a criminal proceeding, domestic or foreign, or being subject to a pending criminal proceeding, domestic or foreign, traffic violations and other minor offenses;
- Being subject to any order, judgment, or decree, not subsequently reversed, suspended or vacated, of any court of competent jurisdiction, domestic or foreign, permanently or temporarily enjoining, barring, suspending or otherwise limiting his involvement in any type of business, securities, commodities or banking activities; and
- Being found by a domestic or foreign court of competent jurisdiction (in a civil action), the SEC or comparable foreign body, or a domestic or foreign exchange or other organized trading market or self-regulatory organization, to have violated a securities or commodities law or regulation, and the judgment has not been reversed, suspended or vacated.

The Company, on the other hand, is presently a party to the following litigation case:

Industrial Bank of Korea vs. DOMSAT
Civil Case No. 99-1853
Regional Trial Court, Makati City, Branch 135

This is a third-party complaint filed by the Government Service Insurance System (GSIS) against a group of reinsurers (collectively, the "reinsurers") including the Company. The third-party complaint stemmed from a complaint filed by the Industrial Bank of Korea, *et al.* against DOMSAT Holdings, Inc. ("DOMSAT") and GSIS to collect DOMSAT's debt in the amount of US\$11 million, plus interest, default interest, expenses as well as damages. The proceeds of the loan were used to finance DOMSAT's two-year lease and/or purchase of a Russian satellite. GSIS's liability is based on the surety bond it issued

to guarantee the repayment by DOMSAT of its debt (the "surety bond"). GSIS filed a third-party complaint against the reinsurers pursuant to the terms of the bond reinsurance binder and the reinsurance treaty executed by them.

GSIS filed a Manifestation and Urgent Omnibus Motion dated March 25, 2008 (the "motion") which moved for the continuation of the main complaint between the lenders on the one hand, and DOMSAT as well as GSIS on the other (Industrial Bank of Korea, et al vs. DOMSAT, et al.). GSIS further moved for the suspension of the proceedings in its third-party complaint against the reinsurers because the liability of the reinsurers is contingent on the liability of GSIS in the main complaint. The Company filed its manifestation dated April 14, 2008 informing the court that it has no objection to the motion of GSIS. GSIS further filed a Manifestation with Urgent Motion dated October 31, 2008 which moved for the deferment of third party proceedings. On October 29, 2008, the Company filed a manifestation stating no objection to GSIS's Manifestation and Urgent Motion dated October 13, 2008.

On December 22, 2008, the Company received an Order dated December 12, 2008, where the court suspended the proceedings against the Company and the third-party defendants until after the completion of the proceedings in the main complaint, since the third-party defendants' liability will be contingent on GSIS's liability in the main complaint. Thus, the third-party proceedings were deferred until the main complaint is concluded.

(i) Significant employees

Although the Corporation has and will likely continue to rely significantly on the continued individual and collective contributions of its senior management team, the Corporation is not dependent on the services of any particular employee. It does not have any special arrangements to ensure that any employee will remain with the Corporation and will not compete upon termination.

(j) Certain Relationships and Related Transactions

The following table presents premiums written (inward) and ceded (outward) between the Corporation, its Principal Shareholders and companies represented by other members of the Board of Directors for 2007 and 2008:

In addition, the Corporation has entered into the following agreements with the Bank of Philippine Islands:

1. *Custodianship Agreement.* On December 14, 2006, the Corporation entered into a Custodianship Agreement with BPI for purposes of opening and maintaining a custodianship account with BPI over securities pertaining to the Corporation. BPI acts as a depository of such securities. For services rendered, BPI is entitled to the custodianship fees based on the net asset value of the fund. The Agreement shall continue in full force and effect unless sooner terminated by either of the parties concerned for any reason whatsoever upon giving the other party at least 30 days advance written notice of termination.

2. *Investment Management Agreement.* On December 14, 2006, the Corporation entered into an Investment Management Agreement with BPI for purposes of appointing BPI as Investment Manager and to invest and reinvest the funds deposited in an investment management account with BPI. As compensation for services, BPI shall be entitled to collect such reasonable compensation to be paid out of the fund. The Agreement shall continue in full force and effect unless sooner terminated by either of the parties concerned for any reason whatsoever upon giving the other party at least 30 days advance written notice of termination.

3. *Retirement Fund Investment Management Agreement.* On July 26, 1985, the Board of Trustees of the National Reinsurance Corporation Employees Retirement Plan entered into an Investment Management Agreement with BPI for purposes of appointing BPI as Investment Manager and to invest and reinvest the funds deposited in an investment management account with BPI. As compensation for services, BPI shall be entitled to collect such reasonable compensation to be paid out of the fund. The Agreement shall continue in full force and effect unless sooner terminated by either of the parties concerned for any reason whatsoever upon giving the other party at least 30 days advance written notice of termination.

There are no other parties, aside from the related parties discussed herein, with whom the Corporation has a relationship that enables the parties to negotiate terms of material transactions that may not be available to other more clearly independent parties on an arm's length basis.

Item 6. Compensation of Directors and Executive Officers

ANNEX B

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATION

Description of Business

National Reinsurance Corporation of the Philippines (hereafter the "Company" or the "Corporation") was incorporated in 1978 pursuant to Presidential Decree No. 1270. The Company operates as a professional reinsurance corporation providing life and non-life reinsurance to the Philippines and to neighboring insurance markets. Since 2007, the Company has also been doing business under the names and styles of "Philippine National Reinsurance Company; PhilNaRe" in order to reinforce its image as the country's national reinsurer and its position as the only domestically-incorporated professional reinsurance company in the Philippines.

The primary mandate of PhilNaRe is to assist in the development of the Philippine insurance industry (a) by providing reinsurance capacity and support to Philippine insurance companies, (b) by serving as a medium for regional and international cooperation in insurance, and (c) by contributing towards higher retention of business within the country. The Company became a vehicle for the Philippine insurance industry's participation in the Asian Reinsurance Corporation ("Asian Re"), a multilateral reinsurance entity based in Bangkok, Thailand established to foster regional cooperation among insurance companies doing business in Asia.

Over a span of three decades, the Company developed into the largest domestic professional reinsurer in the Philippines. PhilNaRe became the country's sole domestic professional reinsurance company following its merger with Universal Malayan Reinsurance Corporation ("UMRe") on March 6, 2006. UMRe itself was the product of the 2004 merger between Universal Reinsurance Corporation ("URC") and Malayan Reinsurance Corporation ("MRC"). Prior to their 2004 merger, URC had been the country's second largest reinsurer and MRC had been ranked third. Presently, PhilNaRe has no subsidiaries.

The Company writes both life and non-life reinsurance. Major business lines under the non-life segment include fire, marine & aviation, and casualty & others. Marine & aviation covers insurance on aircraft, marine vessels and marine cargo. The casualty & others line covers various business and personal insurance risks, the biggest of which are motor car and industrial all risk. Industrial all risk is a blanket policy that protects a business establishment from various perils such as fire, machinery breakdown and loss of property.

As of December 2008, casualty & others accounted for 50% of the Company's Gross Premiums Written ("GPW") and 27% of Net Premiums Written ("NPW"), fire accounted for 21% of GPW and 22% of NPW, marine & aviation accounted for 18% of GPW and 33% of NPW and life accounted for 11% of GPW and 18% of NPW.

The Company writes reinsurance largely for the domestic market. The portion of the Company's GPW accounted for by foreign insurance companies for the years 2006, 2007 and 2008 are 3%, 3% and 8%, respectively.

The Company offers reinsurance both on treaty and facultative arrangements or contracts. Typically, in treaty arrangements, reinsurance is offered to cover more than one policy or entire, precisely defined portfolios while facultative arrangements provide cover on a per policy basis. Facultative reinsurance is individually written by the reinsurer. Each facultative reinsurance policy is negotiated separately, with the

pricing and other terms established at the time the policy is underwritten. Under a facultative arrangement, the ceding company is under no obligation to reinsure any particular risk and the reinsurer to whom an offer is made is likewise under no obligation to accept any particular risk.

In a treaty, the ceding company purchases reinsurance to cover specified blocks of business it has underwritten. The ceding company and the reinsurer enter into a treaty contract which sets out the terms, conditions and limitations which govern the reinsurance arrangements. Both parties are automatically bound in advance with respect to any and all risks that fall within the scope of the contract such that the ceding company would be obliged to cede, and the reinsurer would be obliged to accept all business falling under the scope of the agreement. Reinsurance treaties specify the ceding company's binding limit, which is the maximum amount of risk that can be ceded automatically and that the reinsurer must accept. In contrast to facultative reinsurance, the reinsurer does not approve each individual risk under a treaty arrangement.

The Company competes with a number of large foreign reinsurers in its selected lines of business. These companies offer the lines of reinsurance that the Company also offers. The Company benefits to a certain extent from Presidential Decree No. 1270 ("PD 1270") which mandates all life and non-life insurance and reinsurance companies doing business in the Philippines to cede to the Company at least ten percent of their outward reinsurance placed with foreign reinsurers.

Review of 2008 versus 2007

Results of operations

Reinsurance premiums – net of returns or Gross Premiums Written

Gross premiums written in 2008 increased by P176.9 million, or 4.1%, to P4,493.5 million from P4,316.6 million in 2007. The growth in reinsurance premiums was largely due to acceptances in both marine treaty and facultative businesses, which increased by P109.5 million or 73.1% and P235.4 million or 81.3%, respectively. Reinsurance premiums from casualty lines and life business also grew by P212.7 million (10.4%) and P62.5 million (13.9%), respectively. Offsetting this growth was a decline in premiums from the fire business, which dropped by P443.1 million or 31.9% in 2008.

Net premiums retained

Despite relatively modest growth in gross premiums, net premiums in 2008 grew by 28.7% to P1,580.0 million from P1,227.4 million in 2007. Retention ratio thus increased from 28.4% in 2007 to 35.2% in 2008, reflecting the Company's efforts to retain more risk (and therefore more premiums) for its own account. The non-life business increased its retention ratio to 32.7% in 2008 from 25.2% in 2007 while the life business slightly decreased to 54.1% in 2008 from 56% in 2007.

Premiums earned

Premiums earned also increased by 32% to P1,551.3 million in 2008 from P1,175.3 in 2007, mainly due to the strong growth in premiums retained and a decrease in reserve for unexpired risk of P28.6 million arising from the use of the 24th method of recognizing reinsurance premiums.

Share in claims and losses

Share in claims and losses doubled in 2008 (P1,236.9 million in 2008 as against P609 million in 2007) due to higher incidence of fire and catastrophe-related (i.e., typhoon) marine losses. Claims incurred included large fire and marine losses including, among others, losses from Carlos Gothong Lines, Negros Navigation, Sulpicio Lines, Baclaran Terminal Plaza and Makati Supermarket. Loss ratio for 2008 was 79.7% as against 51.8% in 2007.

Commissions – net

Net commission increased by 120.9% to P387.2 million in 2008 as against P175.3 million in 2007. Commission ratio increased to 24.5% from 14.3% last year. The increase was attributable to the Company's higher overall retention, which resulted in lower commission income, and to higher commission expense on certain new life business.

Investment income and other income

Investment income and other income declined by 2.37% to P449.2 million in 2008 from P460.1 million in 2007. The decline was largely due to trading losses owing to the steep drop in the Philippine stock market. Higher interest rates also negatively affected the valuation of the Company's investment portfolio, which is concentrated largely in fixed income investments.

Interest Income increased by 10% to P375 million in 2008 from P341 million in 2007 due to a higher level of investible funds. In 2008, the Company's foreign exchange gain amounted to P115.3 million compared to a foreign exchange loss of P179.3 million in 2007. This cushioned the impact of a significant decline in trading income for 2008.

General and administrative expenses

General and administrative expenses increased by 45.9% to P211.7 million in 2008 from P145 million in 2007. This was mainly due to an increase in salaries and employee benefits of P33.8 million and a provision for impairment amounting to P32.8 million. The increase in personnel costs relate to the payment in 2008 of employee bonuses for 2007 performance. The provision for impairment reflects management's assessment as to the collectability of certain long-outstanding receivables. Without the impairment cost, the Company's overall expense ratio was flat at 11% for the years 2008 and 2007.

Provision for income tax

The income tax provision of P70.3 million for 2008 was 27.2% lower than the 2007 figure of P96.6 million due to the lower income before tax of P164.7 million in 2008 compared to P706 million in 2007.

Net Income

As a result of the aforementioned factors, net income in 2008 dropped by 84.5% to P94.4 million from P609.4 million in 2007.

Financial condition

Total resources increased by P753.9 million or 6.55% to P12,272 million in 2008 from P11,518 million in 2007. Material changes in the Company's resources which contributed to the increase are described below.

Reinsurance balances receivable increased by P1,444.6 million or 49.7% to P4,353.4 million in 2008 from P2,908.8 million in 2007 primarily due to an increase in reinsurance recoverable on losses. This represents the amount recoverable from the Company's retrocessionnaires as their share in the Company's claims and losses. The increase is consistent with the increase in the Company's losses in 2008 from its reinsurance operations.

Available-for-sale financial assets increased by P67 million or 1.3% to P5,284.6 million in 2008 from P5,217.5 million in 2007, reflecting additional investments in fixed income securities issued by the National Government.

Loans and receivables increased slightly by P1.7 million or .90% to P195.7 million in 2008 from P194 million in 2007 mainly due to an increase in accrued interest receivable.

Property and equipment, net of accumulated depreciation decreased by P4.8 million or 5.2% to P86.5 million in 2008 from P91.3 million in 2007, mainly due to recorded depreciation (P11.1 million) being higher than capital expenditure of P4.4 million in 2008.

Deferred acquisition costs declined by P6 million or 2.9% to P200.7 million in 2008 from P206.7 million in 2007, reflecting portions of deferred acquisition cost booked in 2007 that were charged to commission expense in 2008.

Deferred reinsurance premiums showed a decrease of 38.6% to P827.3 million in 2008 from P1,348.3 million in 2007. This account pertains to the portion of reinsurance premiums ceded out that relate to the unexpired periods of the policies as of December 31, 2008 and the decrease is consistent with the increase in the Company's retention, which resulted in lower level of outward cessions.

Deferred input value added tax decreased by P17.1 million or 21% to P64.5 million in 2008 from P81.6 million in 2007 largely because of the discontinuance of VAT on reinsurance premiums effective April 6, 2007 (BIR Revenue Regulation 4-2007).

Other assets decreased by 10.8% to P109.4 million in 2008 from P122.6 million in 2007. The decrease was mainly due to reclassification of accounts amounting to P26 million from deferred withholding VAT to deferred output value added tax.

Total liabilities increased by P1,481.3 million or 30.6% to P6,321.9 million in 2008 from P4,840.7 million in 2007. The increase in total liabilities is explained below:

Reinsurance balances payable increased by 76.2% or by P2,034.4 million to P4,705.6 million in 2008 from P2,671.2 million in 2007. The increase was largely due to additional provisions for claims in respect of the large losses that occurred during the year.

Accounts payable and accrued expenses increased by 6% or P2.6 million to P45.5 million in 2008 from P42.9 million in 2007. The increase was mainly due to increase in accruals of various expenses such as utilities, transportation, employee benefits and fringe benefit tax.

Reserve for unearned reinsurance premiums decreased by P492.4 million or 26.7% from P1,845.5 million in 2007 to P1,353.1 million in 2008. The decline represents the unearned portion of premium income recognized from policies in force as of December 31, 2007, which were deemed earned in 2008 under the 24th method.

Deferred reinsurance commission declined by P14.8 million or 12% from P123.1 million in 2007 to P108.3 million in 2007, reflecting the Company's lower level of commission income.

Deferred output value added continued to decline, decreasing by P46.9 million or 30% to P109.4 million in 2008 from P156.3 million in 2007 because of the non-VAT status of reinsurance premiums since April of 2007.

Deferred tax liabilities declined to zero in 2008 from P1.6 million in 2007 due to the Company's incurring a gross loss (for tax purposes) and utilization of net operating loss carryover (NOLCO) in 2008.

Total equity declined by P727.4 million mainly due to payment of P436 million in cash dividends, lower revaluation reserve due to the impact of mark-to-market adjustments in the Company's investment portfolio, and the reacquisition of 22,277,000 shares of stocks under the Company's stock repurchase program.

Review of 2007 versus 2006

Results of operations

Reinsurance premiums – net of returns or Gross Premiums Written

Reinsurance premiums (net of returns) in 2007 increased by P535.1 million, or 14.2%, to P4,316.6 million from P3,781.5 million in 2006. The increase in reinsurance premiums was mainly due to new facultative accounts as well as larger shares on treaties renewed during the year. Reinsurance premiums from fire rose by 18% to ₱1,387.2 million in 2007 from P1,175.3 million in 2006, while reinsurance premiums from casualty and other lines went up by 21.4% to P2,042.1 million in 2007 from ₱1,682.1 million in 2006. Reinsurance premiums from the life business increased by 16.6% to P448.2 million in 2007 from P384.4 million in 2006. These increases were offset by a decline in reinsurance premiums from marine and aviation lines, which went down by 18.6% to P439.2 million in 2007 from P539.7 million the previous year.

Net premiums retained

Net premiums retained in 2007 increased by P273.5 million or 28.7% to P1,227.4 million from P953.9 million in 2006. Overall retention ratio thus increased to 28% in 2007 compared to 25% in 2006. The life business increased its retention ratio to 56% in 2007 from 50% in 2006. The retention ratio of non-life business also went up to 25.2% in 2007 from 22.4% in 2006. Retention rate of marine and aviation lines rose to 55% in 2007 compared to 52% in 2006. Retention rate of the fire business went up to 25.5% in 2007 from 20.2% in 2006 and the casualty business from 18.7% in 2007 to 14.4% in 2006.

Premiums earned

Consistent with the growth in net premiums retained, premiums earned in 2007 increased by 26.6% to P1,175.3 million from P928 million in 2006. The increase in reserve for unexpired risk amounted to P52.1 million in 2007 compared to P25.9 million in 2006. This difference reflects both increased volume of business as well as timing of booking of reinsurance contracts.

Share in claims and losses

Share in claims and losses in 2007 increased by P54.5 million or 9.8% to P609 million from P554.6 million in 2006. However, loss ratio improved to 51.8% in 2007 from 59.8% in 2006. Non-life claims and losses increased 14.6% to P553.9 in 2007 while life claims and losses decreased 22.7% to P55.1 in 2007. The loss ratio on both fire and marine/aviation business went up to 47.3% and 96.5% in 2007 from 36.4% and 95% in 2006, respectively. Loss ratio of casualty and other lines dropped to 44.6% from 50.6% the previous year. Loss ratio of life business declined significantly to 21% from 45.9% because of better claims experience in 2007.

Commissions – net

Commission expense (net) in 2007 decreased by P11 million or 6% to P175.3 million from P186.4 million in 2006. Likewise, commission ratio declined to 14.30% in 2007 from 19.6% in 2006. The drop in commission expense was mainly due to adjustments made to commissions paid to certain cedants in prior years.

Investment income and other income

Investment income and other income in 2007 amounted to P460.1 million, up by P155.7 million or 51.1%, from P304.4 million in 2006. The increase was comprised of realized trading gains from equity and fixed income securities in the Company's investment portfolio (P253 million), dividend income (P17.2 million) and rental income (P1.2 million). The company also incurred a foreign currency translation loss of P179.3 million in 2007 compared to a loss P90.7 million in 2006.

General and administrative expenses

General and administrative expenses ("GAE") in 2007 dropped by P74.1 million or 33.82% to P145 million from P219.2 million in 2006, which included non-recurring expenses amounting to ₱100 million relating to the merger with UMRe. Non-recurring expenses in 2006 included the following: provision for doubtful accounts (P58.0 million), alignment of retirement benefits (₱36.0 million), professional fees (₱3.0 million), and documentary stamps (₱3.0 million). Excluding the non-recurring expenses in 2006, expense ratio was flat at 12% in 2007.

Provision for income tax

Provision for income tax was up by P99 million consistent with the increase of income before tax.

Net Income

As a result of the above mentioned factors, net income for 2007 increased by P334.5 million, or 122%, to P609 million, compared to net income of P275 million for 2006.

Financial condition

Total resources increased by P2,401.4 million or 26.3% to P11,517.7 million in 2007 from P9,116.3 million in 2006. Material changes in the Company's resources which contributed to the increase are described below.

Reinsurance balances receivable decreased by P46.9 million or 1.6% to P2,908.8 million in 2007 from P2,955.7 million in 2006 due to collections made during the period. Due from ceding companies decreased from P2,072.9 million in 2006 to P1,630.8 million in 2007. However, funds held by ceding companies and reinsurance recoverable on losses increased to P87 million and P1,297.8 million in 2007 from P82.8 million and P906.8 million in 2006, respectively.

Deferred acquisition costs declined by ₱68.4 million or 24.9% to ₱206.7 million in 2007 from ₱275.1 million in 2006 due to lower commission expenses in 2007.

Investments increased by P1,772.1 million or 51.4% to P5,217.5 million in 2007 from P3,445.5 million in 2006. The increase resulted largely from the proceeds of the listing of the Company's shares on the PSE on April 27, 2007.

Loans and receivables increased by P39.1 million or 25.2% to P194 million in 2007 from P155 million in 2006 mainly due to increase in term loans (among the Company's investments) and accrued interest on available-for-sale ("AFS") investments.

Property and equipment—net increased by P1.3 million or 1.5% to P91.3 million in 2007 from P90 million in 2006 due to additional costs incurred in the renovation of an extension office intended for the Company's Accounting Department and new acquisition of various computers and peripherals.

Deferred reinsurance premium showed a decrease of 1.7% to P1,348.3 million in 2007 from P1,371.1 million in 2006 as portions of deferred reinsurance premiums at yearend 2006 were deemed earned under the 24th method of revenue recognition.

Deferred input value added tax decreased by P132.6 million or 61.9% to P81.6 million in 2007 from P214.2 million in 2006 largely because of the discontinuance of VAT on reinsurance premiums effective April 6, 2007 (BIR Revenue Regulation 4-2007).

Other assets went down by 9% or by P12.1 million to ₱122.6 million in 2007 from P134.8 million in 2006. The decrease was mainly due to disposal of a foreclosed property which was previously classified as other investment amounting to P12.1 million.

Total liabilities decreased by ₱444.7 million or 8% to ₱4,840.7 million in 2007 from ₱5,285.3 million in 2006. The decrease in total liabilities is explained below:

Reinsurance balances payable decreased by 6.73% or by P192.7 million to P2,671.1 million in 2007 from 2,863.9 million in 2006. The decrease was brought about by the settlement of reinsurance premiums due to retrocessionaires (from P1,537.3 million in 2006 to P981.3 in 2007). However, funds held for retrocessionaires and claims payable increased from P55.7 million and P1,270.9 million in 2006 to P61.6 million and P1,628.3 million in 2007 respectively.

Reserve for unexpired risks increased by P29.2 million or 1.6% to ₱1,845.5 million from P1,816.3 million due to higher volume of business accepted for 2007 compared to previous year.

Deferred reinsurance commission decreased by P97.9 million or 44.3% from P221 million in 2006 to P123.1 million in 2007 due to the related decline in commission expense.

Deferred output value added tax decreased by P168.6 million or 51.9% to P156.3 million in 2007 from P324.9 million in 2006 because reinsurance premiums were no longer subject to VAT.

Accounts payable and accrued expenses decreased by 27.5% or P16.3 million to P42.9 million in 2007 from P59.2 million in 2006. The decrease was mainly due to payment of taxes and expenses.

Deferred Income tax liabilities of P1.6 million for 2007 pertains to increase in deferred tax on deferred acquisition cost, revaluation reserve on AFS investments and excess of reserve for unexpired risk per books over tax basis.

Total equity rose by P2.8 billion largely due to proceeds of the Company's initial public offering of 741,902,600 shares at a price of P3.80 per share on April 27, 2007. Capital stock net of treasury shares grew by 63.6% or P848 million and additional paid in capital expanded 137% from P1.3 billion to P3 billion. Revaluation reserve decreased by 53.6% due to realization of gains from some of the Company's fixed income and equity investments. Retained Earnings also increased by 54.1%, reflecting earning for 2007 net of a P0.07 per share cash dividend paid on August 6, 2007 amounting to P152.7 million.

Review of 2006 versus 2005

Results of operations

Reinsurance premiums – net of returns or Gross Premiums Written

Reinsurance premiums (net of returns) in 2006 increased by P1,191.7 million, or 46%, to ₱3,781.5 million from P2,589.8 million in 2005. The increase in reinsurance premiums was mainly due to increases in the fire and life businesses which more than doubled. Reinsurance premiums from fire rose by 111% to ₱1,175.3 million from P558 million in 2005, while reinsurance premiums from casualty and other lines went up by 40% to ₱1,682 million from ₱1,202 million in 2005. Reinsurance premiums from the life business increased by 152% to P384 million from P153 million in 2005. These increases were partially offset by the decline in reinsurance premiums from marine and aviation which went down by 20% to ₱540 million from ₱677 million the previous year.

Net premiums retained

Net premiums retained in 2006 increased by ₱130 million or 16% to P954 million from P824 million in 2005. However, retention ratio dropped to 25% compared to 32% in 2005. The fire business experienced the highest drop in retention ratio, down to 20% from 36% in 2005. Retention ratio for casualty and others line also went down to 14% from 20% in 2005. The reason for the decline in retention ratios was the rapid growth in facultative business for which the average retention is lower compared to the treaty business.

Premiums Earned

Premiums earned in 2006 increased by only 23% to ₱928 million from P756 million in 2005 mainly due to the decline in overall retention rate. Reserve for unexpired risk rose by P26 million in 2006 and by P68 million in 2005.

Share in claims and losses

Share in claims and losses in 2006 increased by P48 million or 9.6% to ₱555 million from P506 million in 2005. Claims and losses of the fire business registered a significant drop, down by 37% to ₱83.2 million from ₱132.0 million in 2005 due to overall improvement in loss experience. The loss ratio dropped to 59.8% from 67.0% in 2005. The loss ratio of the fire business went down to 36.4% compared to 63.4% in 2005. Marine and aviation business had the highest loss ratio of 95.0% due to a number of marine claims brought about by the typhoons which occurred in the country during the year.

Commissions – net

Commission expense (net) in 2006 increased by P12 million or 7% to ₱186 million from P175 million in 2005. Commission ratio declined to 19.60% in 2006 from 21.1% in 2005. The drop in commission expense was mainly due to lower commission expense on the non-life treaty business. The drop in commission expense was also attributable to the increase in commission income as the Company increased the amount of its retroceded business.

Investment income and other income

Investment income and other income in 2006 rose to ₱304 million, up by P195 million or by 179%, from P109 million in 2005. The increase in interest income by P100 million or by 66% to P253 million from

P153 million in 2005 was due to an increase in investible funds and higher trading gains on fixed income securities. A higher capital base resulting from the rights offer made in May and June 2005 helped mitigate the impact of a declining interest rate scenario. Average yield in 2006 for fixed income instruments was approximately 9.2%. Weighing on investment income was the foreign currency loss of P91 million in 2006, 97% higher than the foreign exchange loss of P46 million recorded in 2005.

There was also a one-time booking of gain on acquisition of ₱51.3 million which added to other income. The gain was a result of the merger between UMRe and PhilNaRe.

General and Administrative Expenses

General and administrative expenses ("GAE") in 2006 increased to ₱219 million, up by 170%, from P81 million in 2005. The 2006 GAE included non-recurring expenses amounting to ₱100 million while the 2005 GAE included non-recurring expenses of ₱4.7 million. The breakdown of the non-recurring expenses in 2006 were: provision for doubtful accounts of P58.0 million, alignment of retirement benefits (₱36.0 million), professional fees (₱3.0 million), and documentary stamps (₱3.0 million). The non-recurring expenses in 2005 of P4.7 million were all merger related expenses (professional fees P2.8 million and documentary stamps ₱1.9 million). Excluding the non-recurring expenses, total GAE would have increased to ₱119 million in 2006 from P76.3 million in 2005. The expense ratio in 2006 jumped to 23% compared to 10% the previous year. Excluding the non-recurring expenses, the expense ratio would have been at 12%.

Net Income

As a result of the above mentioned factors, net income for 2006 was up by P176 million, or 179%, to ₱275 million, compared to net income of P99 million for 2005.

Financial condition

Total resources increased by P4,658.2 million or 104.5% to ₱9,116.3 million from P4,458.1 million in 2005. Material changes in the Company's resources which contributed to the increase are described below.

Reinsurance balances receivable increased by P1,287.5 million or 77.2% to ₱2,955.7 million from P1,668.3 million in 2005. This was mainly because of increases in receivables from ceding companies due to the higher volume of business compared to the previous year. At year end 2006, the Company's total receivables from ceding companies amounted to ₱2,072.9 million.

Deferred acquisition costs went up by ₱141.8 million or 106.4% to ₱275.1 million from ₱133.3 million in 2005 due to higher volume of business compared to the previous year.

Investments increased by P1,651.6 million or 89.3% to ₱3,500.8 million from P1,849.2 million in 2005. The increase is largely accounted for by an increase in investments classified as available-for-sale securities which went up by P1,788.6 million or 108%. This was partly offset by a reduction of P188.3 million in held-to-maturity securities.

Loans and receivables increased by P111.7 million or 258.7% to P154.9 million from P43.2 million in 2005. The increase was due to change in the Company's investment mix.

Deferred reinsurance premium increased to ₱1,371.1 million from ₱543.5 million in 2005. The increase of P827.7 million or 152.3% is attributed to the higher volume of business accepted during the year.

Property and equipment – net increased by ₱40.8 million or 83% to P90 million from P49.2 million in 2005. This includes properties acquired thru the merger between NRCP and UMRe.

Deferred input value added tax went up to ₱214.2 million from ₱23.8 million in 2005. The increase was due to the imposition of value-added tax on reinsurance premiums which took effect in November 2005. The full year impact was felt in 2006 resulting in higher deferred input value added tax.

Other assets increased by P73.7 million or 1272.7% to ₱79.5 million from P5.8 million in 2005 due to an increase in deferred taxes on unpaid premiums.

Total liabilities increased by P2,957.9 million or 127% to ₱5,285.3 million from P2,327.5 million in 2005. This was mainly due to increase in deferred reinsurance commissions which went up to ₱221.0 million from P82.0 million the previous year and an increase of ₱288.2 million in deferred output value-added tax payable which went up to ₱324.9 million from ₱36.7 million in 2005. Increase in deferred reinsurance commissions was due to volume of business ceded while increase in deferred output value-added tax pertains to increase in deferred taxes on uncollected premiums.

Reinsurance balances payable increased by P1,531.2 million or 114.9% due to increases in claims payable to ceding companies and premiums payable to retrocessionaires.

Reserve for unexpired risks increased by P976.2 million or 116.2.0% to ₱1,816.3 million from P840.1 million due to the higher volume of business compared to the previous year.

Accounts payable and accrued expenses increased by P43.5 million or 276.8% to ₱59.2 million from P15.7 million largely due to increase in accruals of merger related expenses such as retirement and sick leave benefits.

Total equity stood at ₱3,831.0 million, an increase of 79.8% or P1,700.4 million from P2,130.6 million in 2005. The increase was due to net income of ₱274.9 million in 2006 and an increase of ₱201.5 million in revaluation reserves which went up due to unrealized gains from marking to market of securities at fair value. This was partly offset by the acquisition of treasury shares in the amount of ₱254.5 million representing PhilNaRe shares owned by UMRe.

Key Performance Indicators

	2008	2007	2006
Net Income	P 94 million	P 609 million	P275million
Earnings per share	P .04	P .31	P .20
Retention ratio	35%	28%	25%
Combined ratio	118%	78%	92%
Return on average equity	1.5%	11.6%	9.2%

The company's key performance ratios for the last three years are described hereunder:

Net income (NI) - Net income for 2008 decreased by 84.5% to P94 million from P609 million in 2007. Net Income for 2007 was up by P334 million or 121% compared to net income of P275 million in 2006.

Earnings per share (EPS) - EPS is computed by dividing net income by weighted average number of shares issued and outstanding. The company's EPS was P0.04, P0.31 and P0.20 for the years ended December 31, 2008, 2007 and 2006, respectively.

Retention ratio - indicates the total amount of business risk retained by the company, computed by dividing reinsurance premiums retained by reinsurance premiums (Gross premiums written or GPW). Retention ratio for 2008 was at 35%, which is an increase from 28% in 2007 and 25% in 2006.

Combined ratio - a measure of performance used by the Company to measure profitability of its insurance operations. A ratio below 100% indicates that the company is making underwriting profit while a ratio above 100% means that it is paying out more in claims and expenses than it is receiving from premiums. Combined ratio is the sum of loss ratio, commission ratio and expense ratio. The combined ratio was at 118% in 2008, 78% in 2007 and 92% in 2006.

Return on average equity (ROE) - measures the rate of return on the ownership interest (shareholders' equity) of the common stock owners, computed by dividing net income by average equity. ROE for the last three years was at 1.5%, 11.6% and 9.2% for 2008, 2007 and 2006 respectively.

Material Event/s and Uncertainties:

Other than the disclosures described in the preceding sections, the Company has nothing to report on the following:

- a. Any known trends, demands, commitments, events or uncertainties that will have a material impact on its liquidity.
- b. Events that will trigger direct or contingent financial obligation that is material to the company, including any default or acceleration of an obligation.
- c. Material off balance sheet transactions, arrangements, obligations (including contingent obligations), and other relationships of the Company with unconsolidated entities or other persons created during the reporting period.
- d. Any material commitments for capital expenditures.
- e. Any known trends, events or uncertainties that have had or that are reasonably expected to have a material favorable or unfavorable impact on net sales/revenues/income from continuing operations.
- f. Any significant elements of income or loss that did not arise from the issuer's continuing operations.
- g. Any seasonal aspects that had a material effect on the financial condition or results of operations.

Changes in and Disagreements with Accountants on Accounting and Financial Disclosure

Punongbayan & Araullo has served as the independent auditor of the Company's financial statements since 2003. The Company has not had any material disagreements on accounting or financial disclosure matters with Punongbayan & Araullo.

External Audit Fees

The following are the aggregate fees (in Philippine pesos) billed for each of the last three fiscal years for professional services rendered by Punongbayan & Araullo:

	2008	2007	2006
Audit and audit-related fees	852,663	526,096	448,517
Other assurance and related services	-	-	612,777
Tax fees	-	-	80,000
Total	852,663	526,096	1,141,294

The Audit Committee reviews the external auditor's engagement letter covering their scope of work and the reasonableness of the related professional fee. The Audit Committee recommends for approval of the Board the appointment of the external audit service provider for the subject audit year. The Board approves the appointment subject to ratification by the stockholders during the Company's annual stockholders meeting.

Dividends

The Company's Board of Directors is authorized to declare dividends. A cash dividend declaration does not require any further approval from the stockholders. A stock dividend declaration requires further approval of the stockholders holding or representing not less than two-thirds (2/3) of the Company's outstanding capital stock. Dividends may be declared and paid out of the unrestricted retained earnings which shall be payable in cash, property, or stock to all stockholders on the basis of outstanding stock held by them, as often and at such times as the Board of Directors may determine and in accordance with law.

The Insurance Code prescribes that any declaration or distribution of dividends by the Company must be attested in a sworn statement by the President or Treasurer of the Company that such dividends will be sourced from profits after retaining unimpaired the entire paid-up capital stock, the margin of solvency, the legal reserve funds required by law, and the sum sufficient to pay all net losses and all liabilities for expenses and taxes. The Company is required to report such dividend declaration or distribution to the Insurance Commission within thirty (30) days from the date of such declaration or distribution. Other than the foregoing, the Company is not aware of any other restrictions that limit the payment of dividends on common stock.

It is the Company's policy to declare dividends regularly with the pay-out determined by the Company's performance as well as by the availability of unappropriated retained earnings for distribution. On March 25, 2008, the Company declared cash dividends amounting to a total of P436,390,920. The payment of dividends by insurance companies is governed in the Philippines by Section 195 of the Insurance Code as well as by Section 43 of the Corporation Code, both of which establish the appropriate amount of retained earnings which may be paid out for dividend distribution. Beyond these inherent limitations, there are no

known restrictions or impediments to the Company's ability to pay dividends on common equity or are there likely to be any in the future.

Recent Sales of Unregistered or Exempt Securities

The following table sets out details of the shares sold by the Company from January 1, 2006 to December 31, 2008, which includes new issues, shares issued in exchange for property, services or other shares, and new shares resulting from the modification of outstanding shares.

Date	No. of Shares	Purchaser	Consideration	Exemption from registration
Sept. 15, 2006	5,885,583	Issued to shareholders of UMRe pursuant to merger	P251.18 per Share	The Merger was processed by the SEC's Corporate Registration and Monitoring Dept.
Jan. 15, 2007	1,471,219,325	Issued to shareholders after stock split	P1.00 per Share	Section 10.1(j) of the SRC

The Board of Directors of the Company and stockholders owning more than 2/3 of the Company's outstanding capital stock approved the Plan of Merger of the Company with Universal Malayan Reinsurance Corporation on October 4, 2005 and October 24, 2005, respectively. The Merger became effective upon approval by the Securities and Exchange Commission ("SEC") on March 6, 2006 (the "Effective Date"). Pursuant to the Plan of Merger, each common share of UMRe, issued and outstanding as of the Effective Date, shall be cancelled and converted into fully paid shares of the Company at a ratio of 1 share of the Company for every 6.80 common shares of UMRe. On September 15, 2006, the Company issued 5,885,583 common shares to shareholders of UMRe. The issuance of common shares pursuant to the Merger is an exempt transaction under Section 10.1(c) of the SRC because the Merger is considered an isolated transaction.

On December 22, 2006, the Company's stockholders holding or representing at least two-thirds (2/3) of the outstanding capital stock of the Company approved the resolution of the Board of Directors adopted on November 28, 2006, for the stock split or the decrease in the par value of the authorized capital stock from Thirty Million (30,000,000) shares with a par value of One Hundred Pesos (P100.00) per share to Three Billion (3,000,000,000) shares with a par value of One Peso (P1.00) per share. The SEC approved the stock split on January 15, 2007. This resulted in the pro rata distribution of 1,471,219,325 shares to the shareholders as of January 15, 2007. The stock split is an exempt transaction under Section 10.1(j) of the SRC because it is essentially an exchange of securities by the Company exclusively made with its existing stockholders and no commission was paid or given in connection with such stock split.

Corporate Governance

The Company is committed to the principles and practices of good corporate governance. The Company's Corporate Governance Manual was filed with the Insurance Commission and the Securities and Exchange Commission and has been in effect since January 1, 2003. Furthermore, the Company's Amended By-Laws provides for Board committees directly involved in issues of good corporate governance.

The Audit Committee of the Board of Directors is composed of three independent directors and its responsibilities include, among other things, monitoring the system of internal controls and corporate compliance with laws, regulations and code of ethics.

The Nomination and Compensation Committee of the Board of Directors is composed of three directors at least one of whom must be an independent director. The Committee reviews and evaluates the qualifications of all persons nominated to the Board as well as those nominated to other position requiring appointment by the Board. Relative to compensation, the Committee provides a formal and transparent procedure for developing a policy on executive remuneration and for fixing the remuneration of corporate officers and directors. It also provides oversight for over remuneration of senior management and other key personnel.

In order to measure or determine the level of compliance of the Board of Directors and management with the Company's Manual of Corporate Governance, the Company has appointed a Compliance Officer, who is responsible on a continuing basis for monitoring compliance with the provisions of the Company's Manual of Corporate Governance. The Compliance Officer likewise accomplishes Self Assessment Questionnaire-General Disclosure on Corporate Governance Practices for Insurance Companies, Professional Reinsurers and Intermediaries. The report, which is reviewed by the Board of Directors, is a requirement of the Insurance Commission ("IC") and is submitted to the IC on a semi-annual basis.

The Company continues to improve corporate governance practice through continuous training of directors, officers and employees. Furthermore, a Risk Management Committee has been established by the Board of Directors of PhilNaRe to assist the Board in the development and oversight of the company's risk management program.

The Risk Management Committee likewise assists the Board:

- to oversee that risk management is an integral part of the planning and operations of PhilNaRe in order to meet corporate goals and objectives
- to ensure that a proper risk assessment is carried out at least annually and that risks are being managed and monitored effectively
- to fulfill the corporate governance requirements and help ensure that corporate and shareholders' values are preserved and enhanced.
- to ensure that risk management is communicated across PhilNaRe and understood by all employees.

There has been no deviation from the Company's Manual of Corporate Governance. The Company's Board of directors and management recognize that a good corporate governance system is integral to the mandate bestowed upon them by the Company's stockholders.

**STATEMENT OF MANAGEMENT'S RESPONSIBILITY
 FOR FINANCIAL STATEMENTS**

The management of **National Reinsurance Corporation of the Philippines** is responsible for all information and representations contained in the financial statements for the years ended December 31, 2008, 2007 and 2006. The financial statements have been prepared in conformity with generally accepted accounting principles in the Philippines and reflect amounts that are based on the best estimates and informed judgment of management with an appropriate consideration to materiality.

In this regard, management maintains a system of accounting and reporting which provides for the necessary internal controls to ensure that transactions are properly authorized and recorded, assets are safeguarded against unauthorized use or disposition and liabilities are recognized. The management likewise discloses to the company's audit committee and to its external auditor: (i) all significant deficiencies in the design or operation of internal controls that could adversely affect its ability to record, process, and report financial data; (ii) material weaknesses in the internal controls; and (iii) any fraud that involves management or other employees who exercise significant roles in internal controls.

The Board of Directors reviews the financial statements before such statements are approved and submitted to the stockholders of the company.

Punongbayan & Araullo, the independent auditors appointed by the stockholders, has examined the financial statements of the company in accordance with generally accepted auditing standards in the Philippines and has expressed its opinion on the fairness of presentation upon completion of such examination, in its report to the Board of Directors and stockholders.

We have audited the accompanying financial statements of National Reinsurance Corporation of the Philippines, which comprise the balance sheets as at December 31, 2008 and 2007, and the income statements, statements of changes in equity and cash flow statements for each of the three years in the period ended December 31, 2008, and notes to financial statements comprising of a summary of significant accounting policies and other explanatory notes.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with Philippine Financial Reporting Standards. This responsibility includes: designing, implementing and maintaining internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error; selecting and applying appropriate accounting policies; and making accounting estimates that are reasonable in the circumstances.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with Philippine Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements present fairly, in all material respects, the financial position of National Reinsurance Corporation of the Philippines as of December 31, 2008 and 2007, and of its financial performance and its cash flows for each of the three years in the period ended December 31, 2008 in accordance with Philippine Financial Reporting Standards.

NATIONAL REINSURANCE CORPORATION OF THE PHILIPPINES
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2008, 2007 AND 2006
(Amounts in Philippine Pesos)

1. CORPORATE INFORMATION

1.1 General

National Reinsurance Corporation of the Philippines (the Company) was incorporated in 1978 by virtue of Presidential Decree No. 1270, as a domestic professional reinsurance firm to provide life and non-life reinsurance capacity to the Philippines and neighboring insurance markets. Under the Decree, it became the vehicle for the Philippine insurance industry's participation in the Asian Reinsurance Corporation (Asian Re), a multi-government-initiated reinsurance entity, based in Bangkok, Thailand, which was established to foster regional cooperation among insurance companies doing business in Asia.

The Company's registered office, which is also its principal place of business, is located at 18th Floor, Philippine AXA Life Center, Sen. Gil J. Puyat Avenue corner Tindalo Street, Makati City.

The financial statements of the Company for the year ended December 31, 2008 (including the comparatives for the years ended December 31, 2007 and 2006) were authorized for issue by the Company's Board of Directors (BOD) on March 31, 2009.

1.2 Merger With Universal Malayan Reinsurance Corporation

On May 28, 2004, the Company entered into a Memorandum of Agreement with Universal Malayan Reinsurance Corporation (UMRC) for the merger of the two entities. Subsequently, on October 10, 2005, the Company executed a Plan of Merger (the Plan) together with UMRC, under which both parties agreed to a combination whereby the Company would be the surviving corporation. The stockholders and BOD of each of the Company and of UMRC approved the Plan on October 4, 2005 and October 24, 2005, respectively.

On March 6, 2006, the merger was approved by the Securities and Exchange Commission (SEC) and was eventually consummated by the Company and UMRC on that date.

To consummate the merger, the Company issued 5,885,583 shares of capital stock (with P100 par value) at an agreed exchange value of P251.18 per share amounting to P1,478,340,738 and incurred P4,041,020 for costs directly attributable to the merger, in order to acquire from UMRC the following (see Note 17):

Assets:

Cash and cash equivalents	P 196,158,513
Reinsurance balances receivable	216,597,266
Deferred acquisition costs	36,543,768
Available-for-sale financial assets	1,344,617,555
Held-to-maturity investments	46,906,447
Loans and receivables	86,713,887
Property and equipment	85,898,570
Deferred reinsurance premium	53,621,139
Investment properties	24,556,312
Other assets	<u>22,949,923</u>

P2,114,563,380

Liabilities:

Losses and claims outstanding	P 449,780,223
Reinsurance balances payable	138,667,724
Reserve for unexpired risks	176,210,742
Deferred reinsurance commission	13,553,013
Deferred output value-added tax (VAT)	5,033,438
Accounts payable and accrued expenses	<u>41,496,120</u>

P 824,741,260

The merger also resulted to the Company's acquisition of its own shares of stock valued at P243,855,340 (970,839 shares at P251.18 per share) from UMRC which the latter had previously purchased from the Company. These reacquired shares were shown as part of Treasury Shares account in the 2006 statement of changes in equity (see Note 17).

Further, the Company recognized gain on acquisition of net assets of UMRC, brought about by the merger transaction, amounting to P51,295,702, which is shown as part of Investment and Other Income account in the 2006 income statement (see Note 12).

1.3 Initial Public Offering

On February 20, 2007, the BOD authorized the issuance and sale of unsubscribed and unissued authorized capital stock equivalent to 489,493,700 shares of common stock and the reissuance of 148,506,300 shares of common stock which were then in the treasury of the Company. These shares of stock were actually issued through an initial public offering (IPO) after the Company's application for registration and listing was approved by the SEC and Philippine Stock Exchange (PSE). The underwriters were also given the option to purchase additional shares equivalent to 103,902,600 shares from the unissued capital stock at the offering price range of P3.36 to P4.62. The underwriters exercised the option to purchase all 103,902,600 shares at P3.80 per share. The IPO increased the balance of Additional Paid-in Capital by P1,744,281,918 after underwriting and other IPO-related expenses.

On March 20, 2007, the Company filed the Registration Statement and Listing Application with the SEC and the PSE, for the IPO of its common shares. The IPO was held on April 27, 2007 whereby the Company was able to raise net IPO proceeds of P2.8 billion for the 741,902,600 shares issued at P3.80 per share. The 741,902,600 issued shares consist of new shares totalling 593,396,300 shares and those previously held in treasury totalling 148,506,300 shares with a total cost of P358,070,611.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The significant accounting policies that have been used in the preparation of these financial statements are summarized below. The policies have been consistently applied to all the years presented, unless otherwise stated.

2.1 Basis of Preparation of Financial Statements

(a) Statement of Compliance with Philippine Financial Reporting Standards

The financial statements of the Company have been prepared in accordance with Philippine Financial Reporting Standards (PFRS). PFRS are adopted by the Financial Reporting Standards Council (FRSC) from the pronouncements issued by the International Accounting Standards Board.

The financial statements have been prepared using the measurement bases specified by PFRS for each type of asset, liability, income and expense. These financial statements have been prepared on the historical cost basis, except for the revaluation of certain financial assets. The measurement bases are more fully described in the accounting policies that follow.

(b) Functional and Presentation Currency

These financial statements are presented in Philippine pesos, the Company's functional currency, and all values represent absolute amounts except when otherwise indicated (see also Note 2.13).

2.2 Impact of New Amendments and Interpretations to Existing Standards

(a) Effective in 2008 that are Relevant to the Company

In 2008, the Company adopted for the first time the following new interpretation and amended standards which are mandatory in 2008.

Philippine Interpretation International Financial Reporting Interpretations Committee (IFRIC) 14	: Philippine Accounting Standard (PAS) 19 – The Limit on a Defined Benefit Asset, Minimum Funding Requirements and their Interaction
PAS 39 and PFRS 7 (Amendments)	: PAS 39, Financial Instruments: Recognition and Measurements and PFRS 7, Financial struments: Disclosures

Discussed below are the effects on the financial statements of the new accounting interpretation and amended standards.

- (i) Philippine Interpretation IFRIC 14, *PAS 19 – The Limit on a Defined Benefit Asset, Minimum Funding Requirements and their Interaction* (effective from January 1, 2008). This Philippine Interpretation provides guidance on assessing the limit in PAS 19, *Employee Benefits*, on the amount of the surplus that can be recognized as an asset. It also explains how the pension asset or liability may be affected by a statutory or contractual minimum funding requirement. The Company's adoption of this interpretation does not have any impact on the Company's financial statements, as it has a retirement benefit obligation and is not subject to any minimum funding requirements.
- (ii) PAS 39 (Amendment), *Financial Instruments: Recognition and Measurement* and PFRS 7 (Amendment), *Financial Instruments: Disclosures* (effective from July 1, 2008). The amendments permit an entity to:
 - reclassify non-derivative financial assets (other than those designated at fair value through profit or loss by the entity upon initial recognition) out of fair value through profit or loss category in particular circumstances; and
 - transfer from the available for sale category to the loans and receivable category those financial assets that would have met the definition of loans and receivables, provided that the entity has the intention and the ability to hold those financial assets for the foreseeable future.

The amendments are applicable in a partially retrospective manner up to July 1, 2008 provided that the reclassification was made on or before November 15, 2008, the cut-off date set by the FRSC. After the cut-off date, all reclassifications will only take effect prospectively. As the Company did not exercise the option to reclassify its financial assets; hence, it determined that the adoption of these amendments has no impact on the 2008 financial statements.

The first time application of these interpretation and amendments has not resulted in any prior period adjustments of balance sheet, net income or cash flows line items.

(b) *Effective in 2008 but not Relevant to the Company*

The following interpretations to published standards are mandatory for accounting periods beginning on or after January 1, 2008 but are not relevant to the Company's operations:

Philippine Interpretation		
IFRIC 11	:	Group and Treasury Share Transactions
Philippine Interpretation		
IFRIC 12	:	Service Concession Arrangements

(c) *Effective Subsequent to 2008*

There are new and amended standards that are effective for periods subsequent to 2008. The following new standards, effective for annual periods beginning on or after January 1, 2009, are relevant to the Company which the Company will apply in accordance with their transitional provisions.

PAS 1 (Revised 2007)	:	Presentation of Financial Statements
Various Standards	:	2008 Annual Improvements to PFRS

Below is a discussion of the possible impact of these accounting standards.

- (i) PAS 1 (Revised 2007), *Presentation of Financial Statements* (effective from January 1, 2009). The amendment requires an entity to present all items of income and expense recognized in the period in a single statement of comprehensive income or in two statements: a separate income statement and a statement of comprehensive income. The income statement shall disclose income and expense recognized in profit and loss in the same way as the current version of PAS 1. The statement of comprehensive income shall disclose profit or loss for the period, plus each component of income and expense recognized outside of profit and loss classified by nature (e.g., gains or losses on available-for-sale assets or translation differences related to foreign operations). Changes in equity arising from transactions with owners are excluded from the statement of comprehensive income (e.g., dividends and capital increase). An entity would also be required to include in its set of financial statements a statement showing its financial position (or balance sheet) at the beginning of the previous period when the entity retrospectively applies an accounting policy or makes a retrospective restatement. The Company will apply PAS 1 (Revised 2007) in its 2009 financial statements.

- (ii) 2008 Annual Improvements to PFRS. The FRSC has adopted the Improvements to International Financial Reporting Standards 2008. These amendments become effective in the Philippines in annual periods beginning on or after January 1, 2009. The Company expects the amendments to the following standards to be relevant to the Company's accounting policies:
- PAS 1 (Amendment), *Presentation of Financial Statements*. The amendment clarifies that financial instruments classified as held for trading in accordance with PAS 39 are not necessarily required to be presented as current assets or current liabilities. Instead, normal classification principles under PAS 1 should be applied. Presently, the Company has no financial assets classified as held for trading under PAS 1, hence, this amendment will have no impact in the Company's 2009 financial statements.
 - PAS 19 (Amendment), *Employee Benefits*. The amendment includes the following:
 - Clarification that a curtailment is considered to have occurred to the extent that benefit promises are affected by future salary increases and a reduction in the present value of the defined benefit obligation results in negative past service cost.
 - Change in the definition of return of plan assets to require the deduction of plan administration costs in the calculation of plan assets return only to the extent that such costs have been excluded from measurement of the defined benefit obligation.
 - Distinction between short-term and long-term employee benefits will be based on whether benefits are due to be settled within or after 12 months of employee service being rendered.
 - Removal of the reference to recognition in relation to contingent liabilities in order to be consistent with PAS 37, *Provisions, Contingent Liabilities and Contingent Assets*, which requires contingent liabilities to be disclosed and not recognized.

The Company's management assessed that this amendment to PAS 19 will have no impact on its 2009 financial statements.
 - PAS 39 (Amendment), *Financial Instruments: Recognition and Measurement*. The definition of financial asset or financial liability at fair value through profit or loss as it relates to items that are held for trading was changed. A financial asset or liability that is part of a portfolio of financial instruments managed together with evidence of an actual recent pattern of short-term profit taking is included in such a portfolio on initial recognition. The Company initially determined that adoption of this amendment will not have a material effect on its 2009 financial statements.

- PAS 40 (Amendment), *Investment Property*. PAS 40 is amended to include property under construction or development for future use as investment property in its definition of investment property. This results in such property being within the scope of PAS 40; previously, it was within the scope of PAS 16. Also, if an entity's policy is to measure investment property at fair value, but during construction or development of an investment property the entity is unable to reliably measure its fair value, then the entity would be permitted to measure the investment property at cost until construction or development is complete. At such time, the entity would be able to measure the investment property at fair value.

Minor amendments are made to several other standards; however, those amendments are not expected to have a material impact on the Company's financial statements.

2.3 *Financial Assets*

Financial assets include cash and cash equivalents and other financial instruments. Financial assets, other than hedging instruments, are classified into the following categories: loans and receivables, and available-for-sale financial assets. Financial assets are assigned to the different categories by management on initial recognition, depending on the purpose for which the investments were acquired. The designation of financial assets is re-evaluated at every reporting date at which date a choice of classification or accounting treatment is available, subject to compliance with specific provisions of applicable accounting standards.

Regular purchase and sales of financial assets are recognized on their trade date. All financial assets that are not classified as at fair value through profit or loss are initially recognized at fair value, plus transaction costs. Financial assets carried at fair value through profit or loss are initially recognized at fair value and transaction costs are expensed in the income statement.

Cash and cash equivalents are defined as cash on hand, demand deposits and short-term, highly liquid investments readily convertible to known amounts of cash and which are subject to insignificant risk of changes in value.

The categories of financial instruments that are relevant to the Company are more fully described below.

(a) *Loans and Receivables*

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. They arise when the Company provides money, goods or services directly to a debtor with no intention of trading the receivables.

Loans and receivables are subsequently measured at amortized cost using the effective interest method, less impairment losses. Any change in their value is recognized in profit or loss. Impairment loss is provided when there is objective evidence that the Company will not be able to collect all amounts due to it in accordance with the original terms of the receivables. The amount of the impairment loss is determined as the difference between the assets' carrying amount and the present value of estimated cash flows.

Loans and receivables presented in the balance sheet of the Company consist of Reinsurance Balances Receivable and Loans and Receivables.

(b) *Held-to-maturity Investments*

This category includes non-derivative financial assets with fixed or determinable payments and a fixed date of maturity. Investments are classified as held-to-maturity if the Company has the positive intention and ability to hold them until maturity. Investments intended to be held for an undefined period are not included in this classification.

Held-to-maturity investments are measured at amortized cost using the effective interest method. In addition, if there is objective evidence that the investment has been impaired, the financial asset is measured at the present value of estimated cash flows. Any changes to the carrying amount of the investment are recognized in profit or loss.

(c) *Available-for-sale Financial Assets*

This category includes non-derivative financial assets that are either designated to this category or do not qualify for inclusion in any of the other categories of financial assets.

All financial assets within this category are subsequently measured at fair value, unless otherwise disclosed, with changes in value recognized in equity, net of any effects arising from income taxes. Gains and losses arising from securities classified as available-for-sale are recognized in the income statement when they are sold or when the investment is impaired.

In the case of impairment, the cumulative loss previously recognized directly in equity is transferred to the income statement. If circumstances change, impairment losses on available-for-sale equity instruments are not reversed through the income statement. On the other hand, if in a subsequent period the fair value of a debt instrument classified as available-for-sale increases and the increase can be objectively related to an event occurring after the impairment loss was recognized in income statement, the impairment loss is reversed through the income statement.

For investments that are actively traded in organized financial markets, fair value is determined by reference to stock exchange quoted market bid prices at the close of business on the balance sheet date. For investments where there is no quoted market price, fair value is determined by reference to the current market value of another instrument which is substantially the same or is calculated based on the expected cash of the underlying net asset base of the investment.

Non-compounding interest, dividend income and other cash flows resulting from holding financial assets are recognized in profit or loss when earned, regardless of how the related carrying amount of financial assets is measured. All income and expense relating to financial assets recognized in profit or loss are presented in the income statement under Investment and Other Income.

Derecognition of financial assets occurs when the rights to receive cash flows from the financial instruments expire or are transferred and substantially all of the risks and rewards of ownership have been transferred.

2.4 Property and Equipment

Property and equipment are stated at cost less accumulated depreciation and any impairment in value.

The cost of an asset comprises its purchase price and directly attributable costs of bringing the asset to working condition for its intended use. Expenditures for additions, major improvements and renewals are capitalized; expenditures for repairs and maintenance are charged to expense as incurred. When assets are sold, retired or otherwise disposed of, their cost and related accumulated depreciation and impairment losses are removed from the accounts and any resulting gain or loss is reflected in income for the period.

Depreciation is computed on the straight-line basis over the estimated useful lives of the assets as follows:

Condominium units	40 years
Office improvements	10 years
Office furnitures and equipment	5 years
Transportation equipment	5 years
EDP equipment	5 years

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount (see Note 2.14). The residual values and estimated useful lives of property and equipment are reviewed and, adjusted if appropriate, at each balance sheet date.

An item of property and equipment is derecognized upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the item) is included in the income statement in the year the item is derecognized.

2.5 Investment Property

Investment property (included as part of Other Assets), is measured initially at acquisition cost. Subsequently, investment property is stated at cost less accumulated depreciation and any impairment in value. Depreciation is computed on the straight-line basis over the estimated useful life of 30 years.

The cost of the investment property comprises its purchase price and directly attributable costs of bringing the asset to working condition for its intended use. Expenditures for additions, major improvements and renewals are capitalized; expenditures for repairs and maintenance are charged to expense when incurred.

Investment property is derecognized upon disposal or when permanently withdrawn from use and no future economic benefit is expected from its disposal. Any gain or loss on the retirement or disposal of an investment property is recognized in the income statement in the year of retirement or disposal.

2.6 Financial Liabilities

Financial liabilities include reinsurance balances payable and accounts payable and accrued expenses.

Financial liabilities are recognized when the Company becomes a party to the contractual agreements of the instrument. All interest related charges are recognized as an expense in the income statement.

Reinsurance balances payable and accounts payable and accrued expenses are recognized initially at their nominal value and subsequently measured at amortized cost less settlement payments.

Dividend distributions to shareholders are recognized as financial liabilities when the dividends are approved by the shareholders.

Financial liabilities are derecognized from the balance sheet only when the obligations are extinguished either through discharge, cancellation or expiration.

2.7 Provisions

Provisions are recognized when present obligations will probably lead to an outflow of economic resources and they can be estimated reliably even if the timing or amount of the outflow may still be uncertain. A present obligation arises from the presence of a legal or constructive commitment that has resulted from past events.

Provisions are measured at the estimated expenditure required to settle the present obligation, based on the most reliable evidence available at the balance sheet date, including the risks and uncertainties associated with the present obligation. Any reimbursement expected to be received in the course of settlement of the present obligation is recognized, if virtually certain, as a separate asset at an amount not exceeding the balance of the related provision. Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. In addition, where time value of money is material, long-term provisions are discounted to their present values using pretax rate that reflects market assessments and the risks specific to the obligation.

Provisions are reviewed at each balance sheet date and adjusted to reflect the current best estimate.

In those cases where the possible outflow of economic resource as a result of present obligations is considered improbable or remote, or the amount to be provided for cannot be measured reliably, no liability is recognized in the financial statements.

Probable inflows of economic benefits that do not yet meet the recognition criteria of an asset are considered contingent assets, hence, are not recognized in the financial statements.

2.8 Revenue Recognition

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured. The following specific recognition criteria must also be met before revenue is recognized:

- (a) *Reinsurance premiums* – Revenue is recognized for revenue premiums from short duration insurance contracts over the period of the contracts using the 24th method except for revenues from marine cargo risks wherein the premiums written during the first ten months of the current year and the last two months of the preceding year are recognized as revenue in the current year. The “24th method” assumes that the average date of issue of all policies written during any one month is the middle of that month. Accordingly, 1/24th of the net premiums are considered earned in the month the reinsurance contracts are issued and 2/24th for every month thereafter (or 1/24th for every 15-day period after the issue month). The portion of the reinsurance premiums retained that relate to the unexpired periods of the policies at balance sheet dates are accounted for as Reserve for Unearned Reinsurance Premiums and presented in the liability section of the balance sheet. The net changes in the account Reserve for Unearned Reinsurance Premiums between balance sheet dates are recognized in the income statement.
- (b) *Interest* – Revenue is recognized as the interest accrues (taking into account the effective yield on the asset).
- (c) *Dividends* – Revenue is recognized when the stockholders’ right to receive the payment is established.

2.9 Claim Costs Recognition

Share in liabilities for claim costs and claim adjustment expenses relating to insurance contracts are accrued when insured events occur.

The share in liabilities for claims (including those for incurred but not reported) are based on the estimated ultimate cost of settling the claims. The method of determining such estimates and establishing reserves are continually reviewed and updated. Changes in estimates of claim costs resulting from the continuous review process and differences between estimates and payments for claims are recognized as income or expense of the period in which the estimates are changed or payments are made.

Share in recoveries on claims are evaluated in terms of the estimated realizable values of the salvage recoverables. Recoveries on settled claims are recognized in the income statement in the period the recoveries are made while estimated recoveries are presented as part of Reinsurance Balances Receivable in the balance sheet.

2.10 Acquisition Costs

Costs that vary with and are primarily related to the acquisition of new and renewal reinsurance contracts such as commissions, certain underwriting costs and inspection fees, are deferred and charged to expense in proportion to reinsurance premium revenue recognized. Unamortized acquisition costs are shown in the balance sheet as Deferred Acquisition Costs.

2.11 Commissions on Retrocessions

Commissions on retrocessions are deferred and are subjected to the same amortization method as the related acquisition costs. Deferred portion are presented in the balance sheet as Deferred Reinsurance Commissions.

2.12 Leases

The Company accounts for its leases as follows:

(a) Company as Lessee

Leases which do not transfer to the Company substantially all the risks and benefits of ownership of the asset are classified as operating leases. Operating lease payments are recognized as expense in the income statement on a straight-line basis over the lease term. Associated costs, such as maintenance and insurance, are expensed as incurred.

(b) Company as Lessor

Leases which do not transfer to the lessee substantially all the risks and benefits of ownership of the asset are classified as operating leases. Lease income from operating leases is recognized as income in the income statement on a straight-line basis over the lease term.

The Company determines whether an arrangement is, or contains a lease based on the substance of the arrangement. It makes an assessment of whether the fulfillment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset.

2.13 Functional Currency and Foreign Currency Transactions

(a) Functional and Presentation Currency

Items included in the financial statements of the Company are measured using the currency of the primary economic environment in which the entity operates (the functional currency). The financial statements are presented in Philippine pesos, which is the Company's functional and presentation currency.

(b) Transactions and Balances

The accounting records of the Company are maintained in Philippine pesos. Foreign currency transactions during the year are translated into the functional currency at exchange rates which approximate those prevailing on transaction dates.

Foreign currency gains and losses resulting from the settlement of such transactions and from the translation at year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognized in the income statement.

2.14 Impairment of Non-financial Assets

The Company's property and equipment and investment property are subject to impairment testing. All other individual assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable.

An impairment loss is recognized for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of fair value, reflecting market conditions less costs to sell and value in use, based on an internal evaluation of discounted cash flow.

All assets are subsequently reassessed for indications that an impairment loss previously recognized may no longer exist and the carrying amount of the asset is adjusted to the recoverable amount resulting in the reversal of the impairment loss.

2.15 Employee Benefits

Pension benefits are provided to employees through a defined benefit plan.

A defined benefit plan is a pension plan that defines an amount of pension benefit that an employee will receive on retirement, usually dependent on one or more factors such as age, years of service and salary. The legal obligation for any benefits from this kind of pension plan remains with the Company, even if plan assets for funding the defined benefit plan have been acquired. Plan assets may include assets specifically designated to a long-term benefit fund, as well as qualifying insurance policies. The Company's defined benefit pension plan covers all regular full-time employees. The pension plan is tax-qualified, noncontributory and administered by a trustee.

The liability recognized in the balance sheet for defined benefit pension plans is the present value of the defined benefit obligation (DBO) at the balance sheet date less the fair value of plan assets, together with adjustments for unrecognized actuarial gains or losses and past service costs. The DBO is calculated by independent actuaries using the projected unit credit method. The present value of the DBO is determined by discounting the estimated future cash outflows using interest rates of high quality corporate bonds that are denominated in the currency in which the benefits will be paid and that have terms to maturity approximating the terms of the related pension liability.

Actuarial gains and losses are not recognized as an income or expense unless the total unrecognized gain or loss exceeds 10% of the greater of the obligation and related plan assets. The amount exceeding this 10% corridor is charged or credited to profit or loss over the employees' expected average remaining working lives. Actuarial gains and losses within the 10% corridor are disclosed separately. Past-service costs are recognized immediately in the income statement, unless the changes to the pension plan are conditional on the employees remaining in service for a specified period of time (the vesting period). In this case, the past service costs are amortized on a straight-line basis over the vesting period.

A defined contribution plan is a pension plan under which the Company pays fixed contributions into an independent entity. The Company has no legal or constructive obligations to pay further contributions after payment of the fixed contribution. The contributions recognized in respect of defined contribution plans are expensed as they fall due. Liabilities and assets may be recognized if underpayment or prepayment has occurred and are included in the balance sheets.

Short-term employee benefits are recognized for the number of paid leave days (including holiday entitlement) remaining at the balance sheet date. They are included in current pension and other employee obligations at the undiscounted amount that the Company expects to pay as a result of the unused entitlement.

2.16 Income Taxes

Current tax assets or liabilities comprise those claims from, or obligations to, fiscal authorities relating to the current or prior reporting period, that are uncollected or unpaid at the balance sheet date. They are calculated according to the tax rates and tax laws applicable to the fiscal periods to which they relate, based on the taxable profit for the year. All changes to current tax assets or liabilities are recognized as a component of tax expense in the income statement.

Deferred tax is provided, using the balance sheet liability method, on temporary differences at the balance sheet date between the tax base of assets and liabilities and their carrying amounts for financial reporting purposes.

Under the balance sheet liability method, with certain exceptions, deferred tax liabilities are recognized for all taxable temporary differences and deferred tax assets are recognized for all deductible temporary differences and the carryforward of unused tax losses and unused tax credits to the extent that it is probable that taxable profit will be available against which the deferred tax asset can be utilized.

The carrying amount of deferred tax assets is reviewed at each balance sheet date and reduced to the extent that it is probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilized.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the period when the asset is realized or the liability is settled, based on tax rates and tax laws that have been enacted or substantively enacted at the balance sheet date.

Most changes in deferred tax assets or liabilities are recognized as a component of tax expense in the income statement. Only changes in deferred tax assets or liabilities that relate to a change in value of assets or liabilities that is charged directly to equity are charged or credited directly to equity.

2.17 Equity

Capital stock is determined using the nominal value of shares that have been issued or reissued.

Additional paid-in capital includes any premiums received on the initial issuance of capital stock. Any transaction costs associated with the issuance of shares are deducted from additional paid-in capital, net of any related income tax benefits.

Treasury shares are stated at the cost of re-acquiring such shares.

Revaluation reserves comprise gains and losses due to the revaluation of certain available-for-sale financial assets.

Retained earnings include all current and prior period results as disclosed in the income statement.

2.18 Earnings Per Share

Earnings per share is determined by dividing net income by the weighted average number of shares issued, adjusted for stock dividends and stock split, less shares held in treasury during the period.

3. SIGNIFICANT ACCOUNTING JUDGMENTS AND ESTIMATES

The Company's financial statements prepared in accordance with PFRS require management to make judgments and estimates that affect amounts reported in the financial statements and related notes. Judgments and estimates are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under circumstances. Actual results may ultimately differ from these estimates.

3.1 Critical Management Judgments in Applying Accounting Policies

In the process of applying the Company's accounting policies, management has made the following judgments, apart from those involving estimation, which have the most significant effect on the amounts recognized in the financial statements:

(a) Impairment of Available-for-sale Financial Assets

The determination when an investment is other-than-temporarily impaired requires significant judgment. In making this judgment, the Company evaluates, among other factors, the duration and extent to which the fair value of an investment is less than its cost; and the financial health of and near-term business outlook for the investee, including factors such as industry and sector performance, changes in technology and operational and financing cash flow.

(b) Distinction Between Investment Properties and Owner-occupied Properties

The Company determines whether a property qualifies as investment property. In making its judgment, the Company considers whether the property generates cash flows largely independently of the other assets held by an entity. Owner-occupied properties generate cash flows that are attributable not only to the property but also to other assets used in the operations.

Some properties comprise a portion that is held to earn rental and another portion that is held for administrative purposes. If these portions can be sold separately (or leased out separately under finance lease), the Company accounts for the portions separately. If the portions cannot be sold separately, the property is accounted for as investment property only if an insignificant portion is held for administrative purposes. Judgment is applied in determining whether ancillary services are so significant that a property does not qualify as investment property. The Company considers each property separately in making its judgment.

(c) *Operating Leases*

The Company has entered into various lease agreements as either a lessor or a lessee. Critical judgment was exercised by management to distinguish each lease agreement as either an operating or finance lease by looking at the transfer or retention of significant risk and rewards of ownership of the properties covered by the agreements.

Rental income and expense reported in 2008 amounted to P1,623,000 and P953,418, respectively, and P1,163,890 and P1,021,463, respectively, in 2007.

(d) *Provisions and Contingencies*

Judgment is exercised by management to distinguish between provisions and contingencies. Policies on recognition and disclosure of provision and disclosure of contingencies are discussed in Note 2.7 and relevant disclosures are presented in Note 22.

3.2 Key Sources of Estimation Uncertainty

The following are the key assumptions concerning the future, and other key sources of estimation uncertainty at the balance sheet date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

(a) *Useful Lives of Property and Equipment and Investment Property*

The Company estimates the useful lives of property and equipment and investment property based on the period over which the assets are expected to be available for use. The estimated useful lives of property and equipment and investment property are reviewed periodically and are updated if expectations differ from previous estimates due to physical wear and tear, technical or commercial obsolescence and legal or other limits on the use of the assets. The carrying amounts of property and equipment and investment property are analyzed in Notes 8 and 10, respectively. Actual results, however, may vary due to changes in estimates brought about by the changes in factors mentioned above. There is no change in estimated useful lives of property and equipment during the year.

(b) *Allowance for Impairment of Reinsurance Balances Receivable, and Loans and Receivables*

Allowance is made for specific and groups of accounts, where objective evidence of impairment exists. The Company evaluates these accounts based on available facts and circumstances, including, but not limited to, the length of the Company's relationship with the customers, the customers' current credit status based on known market forces, average age of accounts, collection experience and historical loss experience.

Impairment losses on reinsurance balances receivables amounted to P32,795,155 in 2008 and nil in 2007. The allowance for impairment on reinsurance balances receivable amounted to P139,594,626 and P106,799,471 in 2008 and 2007, respectively (see Note 5).

(c) *Valuation of Financial Assets Other than Loans and Receivables*

The Company carries certain financial assets at fair value, which requires the extensive use of accounting estimates and judgment. In cases when active market quotes are not available, fair value is determined by reference to the current market value of another instrument which is substantially the same or is calculated based on the expected cash flows of the underlying net base of the instrument. The amount of changes in fair value would differ if the Company utilized different valuation methods and assumptions. Any change in fair value of these financial assets and liabilities would affect profit and loss and equity.

Fair value losses on available-for-sale financial assets of P344,189,814 in 2008 and P200,730,657 in 2007 were reported in the equity section (see Note 6).

(d) *Impairment of Non-financial Assets*

PFRS requires that an impairment review be performed when certain impairment indicators are present. The Company's policy on estimating the impairment of non-financial assets is discussed in detail in Note 2.14. Though management believes that the assumptions used in the estimation of fair values reflected in the financial statements are appropriate and reasonable, significant changes in these assumptions may materially affect the assessment of recoverable values and any resulting impairment loss could have a material adverse effect on the results of operations.

(e) *Retirement and Other Benefits*

The determination of the Company's obligation and cost of pension and other retirement benefits is dependent on the selection of certain assumptions used by actuaries in calculating such amounts. Those assumptions are described in Note 15.2 and include, among others, discount rates, expected return on plan assets and salary increase rate. In accordance with PFRS, actual results that differ from the assumptions are accumulated and amortized over future periods and, therefore, generally affect the recognized expense and recorded obligation in such future periods.

The estimated retirement benefit obligation amounted to P28,897,908 and P34,507,695 as of December 31, 2008 and 2007, respectively, while the fair value of plan assets as of those dates amounted to P32,808,081 and P30,090,823, respectively (see Note 15.2).

4. CASH AND CASH EQUIVALENTS

This account consists of:

	<u>2008</u>	<u>2007</u>
Time deposits	P 998,613,936	P 1,283,627,639
Cash on hand and in banks	<u>150,944,351</u>	<u>63,285,012</u>
	<u>P 1,149,558,287</u>	<u>P 1,346,912,651</u>

Time deposits were made for varying periods of between one day and one month depending on the liquidity requirements of the Company. Peso time deposits earn interest with rates ranging from 3.5% to 7.5% while dollar time deposits earn interest rates with rates from 1.75% to 4.5%. Cash in banks generally earn interest at rates based on daily bank deposit rates. The Cash and Cash Equivalents account includes foreign currency denominated cash of US\$5,147,515 (P244,429,766) as of December 31, 2008 and US\$12,984,782 (P537,582,952) as of December 31, 2007.

5. REINSURANCE BALANCES

The details of reinsurance balances are as follows:

	<u>2008</u>	<u>2007</u>
Reinsurance balances receivable:		
Reinsurance recoverable on losses	P 2,712,140,393	P 1,297,757,239
Due from ceding companies	1,668,805,661	1,630,803,800
Funds held by ceding companies	<u>112,053,192</u>	<u>87,074,452</u>
	4,492,999,246	3,015,635,491
Allowance for impairment	(<u>139,594,626</u>)	(<u>106,799,471</u>)
	<u>P 4,353,404,620</u>	<u>P 2,908,836,020</u>
Reinsurance balances payable:		
Claims payable	P 3,516,236,597	P 1,628,313,780
Due to retrocessionaires	1,105,595,785	981,270,895
Funds held for retrocessionaires	<u>83,803,155</u>	<u>61,605,778</u>
	<u>P 4,705,635,537</u>	<u>P 2,671,190,453</u>

All of the Company's reinsurance balances receivable have been reviewed for indicators of impairment. Certain reinsurance balances receivable were found to be impaired and provisions have been recorded accordingly.

A reconciliation of the allowance for impairment at beginning and end of 2008 and 2007 is shown below:

	<u>Note</u>	<u>2008</u>	<u>2007</u>
Balance at beginning of year		P 106,799,471	P 106,799,471

Balance at end of year		<u>P 139,594,626</u>	<u>P 106,799,471</u>

The fair values of these short-term financial assets and liabilities are not individually determined as the carrying amount is a reasonable approximation of fair value.

6. AVAILABLE-FOR-SALE FINANCIAL ASSETS

The amounts in the balance sheets comprise of the following financial assets:

	<u>2008</u>	<u>2007</u>
Bonds	P 4,720,548,819	P 4,479,540,250
Equity securities	424,397,280	581,920,970
Investment in Asian Re shares	84,355,004	69,410,454
Various funds	<u>55,284,786</u>	<u>86,667,704</u>
	<u>P 5,284,585,889</u>	<u>P 5,217,539,378</u>

Bonds include investments reclassified from held-to-maturity securities to available-for-sale financial assets in 2006, and government securities totaling P105,996,443 in 2008 and 2007 which are on deposit with the Insurance Commission (IC) as security for the benefit of policyholders and creditors of the Company in accordance with the provisions of the Insurance Code of the Philippines.

Interest income recognized are presented as part of Investment and Other Income in the income statements (see Note 12).

The following presents the fair values of investments in bonds by contractual maturity dates:

	<u>2008</u>	<u>2007</u>
Due within one year	P 440,727,669	P 12,546,691
Due after one year through five years	3,280,497,907	2,749,539,063
Due after five years through ten years	762,610,423	1,676,234,081
Due after ten years	<u>236,712,820</u>	<u>41,220,415</u>
	<u>P 4,720,548,819</u>	<u>P 4,479,540,250</u>

Bonds earn interest at annual rates ranging from 5% to 15% in 2008 and 3.5% to 15% in 2007. Changes in fair values of these bonds amounted to P16,237,175 (net decrease), and P128,016,627 (net increase) in 2008 and 2007, respectively, and are shown as part of Revaluation Reserves account in the statements of changes in equity (see Note 17).

The balance of equity securities classified as available-for-sale financial assets consists of:

	<u>2008</u>	<u>2007</u>
Cost:		
Quoted in the stock exchange	P 454,979,337	P 534,609,290
Not quoted in the stock exchange	<u>135,608,314</u>	<u>39,391,629</u>
	<u>590,587,651</u>	<u>574,000,919</u>
Fair value gains (losses):		
Quoted in the stock exchange	(159,205,907)	10,119,080
Not quoted in the stock exchange	<u>(6,984,464)</u>	<u>(2,199,029)</u>
	<u>(166,190,371)</u>	<u>7,920,051</u>
	<u>P 424,397,280</u>	<u>P 581,920,970</u>

Equity securities mainly consist of investments in companies listed in the PSE.

The shares of Asian Re have been issued in the name of the Government of the Philippines (GoP) as the Philippine government's participation in the joint undertaking of Asian countries to organize a reinsurance company that will service the needs of the region. The GoP assigned such shares, including any interest accruing thereon, to the Company. The GoP designated the Company as the national institution authorized to subscribe and pay for the said shares of stock. The shares of stock of Asian Re, while not for sale, were classified under this category since these do not qualify for inclusion in any other categories of financial assets. These shares of stock are measured at fair values and the changes in the fair values are recognized in equity.

The fair value of investments in Asian Re shares amounted to P84,355,004 and P69,410,454, as of December 31, 2008 and 2007, respectively. Changes in fair value recognized as part of Revaluation Reserves in the equity section of the balance sheets amounted to P42,428,753, net of deferred taxes amounting to P18,183,752 in 2008 and P31,661,470, net of deferred taxes amounting to P17,048,484 in 2007 (see Notes 16 and 17). The deferred tax was based on the tax rate of 30% and 35% in 2008 and 2007, respectively.

The reconciliation of the carrying amounts of available-for-sale financial assets are as follows:

	<u>2008</u>	<u>2007</u>
Balance at beginning of year	P 5,217,539,378	P 3,445,458,733
Additions	1,674,812,600	5,494,955,271
Disposals	(1,333,353,912)	(3,415,823,771)
Fair value losses	(344,189,814)	(200,730,657)
Foreign currency gains (losses)	<u>69,777,637</u>	<u>(106,320,198)</u>
Balance at end of year	<u>P 5,284,585,889</u>	<u>P 5,217,539,378</u>

The fair values of available-for-sale financial assets have been determined directly by reference to published prices in the active market.

7. LOANS AND RECEIVABLES

This account includes the following:

	<u>2008</u>	<u>2007</u>
Current:		
Accrued interest receivable	P 93,816,273	P 90,362,021
Others	<u>10,134,828</u>	<u>715,769</u>
	<u>103,951,101</u>	<u>91,077,790</u>
Non-current:		
Term loans	80,000,000	90,000,000
Loans receivable	<u>11,787,047</u>	<u>12,912,212</u>
	<u>91,787,047</u>	<u>102,912,212</u>
	<u>P 195,738,148</u>	<u>P 193,990,002</u>

Loans and receivables are usually due within one to twenty years. These financial assets are subject to credit risk exposure. However, the Company does not identify specific concentrations of credit risk with regard to loans and receivables since most of the loans and receivables are secured by collaterals.

Term loans pertain to the Company's participation in syndicated loans of other Companies. These loans are unsecured interest-bearing loans with a term of 4 to 5 years. The effective interest rate on these loans ranges from 6.38% to 6.90% in 2008 and 6.38% to 9.95% in 2007.

Loans receivable includes mortgage, housing, and car loans which have annual effective interest rates of 11% to 13%, 10% to 22%, and 7% to 13%, respectively, in 2008 and 14% to 28%, 10% to 22%, and 7% to 13%, respectively, in 2007.

The fair value of these financial assets is not individually determined as the carrying amount is a reasonable approximation of fair value since the interest rates are approximately the same as the market interest rate.

8. PROPERTY AND EQUIPMENT

The gross carrying amounts and accumulated depreciation at the beginning and end of 2008 and 2007 are shown below:

9. DEFERRED REINSURANCE PREMIUMS AND RESERVE FOR UNEARNED REINSURANCE PREMIUMS

The movement of these accounts is as follows:

	<u>Deferred Reinsurance Premiums</u>		<u>Reserve for Unearned Reinsurance Premiums</u>	
	<u>2008</u>	<u>2007</u>	<u>2008</u>	<u>2007</u>
Balance at beginning of year	P 1,348,262,605	P1,371,157,013	P1,845,503,599	P1,816,299,487
Increase (decrease) during the year	(<u>521,010,954</u>)	(<u>22,894,408</u>)	(<u>492,393,341</u>)	<u>29,204,112</u>

Deferred Reinsurance Premiums pertains to the portion of reinsurance premiums ceded out that relate to the unexpired periods of the policies at balance sheet date.

Reserve for Unearned Reinsurance Premiums is the portion of reinsurance premiums assumed that relate to the unexpired periods of the policies at balance sheet date.

The difference between the increase in Deferred Reinsurance Premiums and Reserve for Unearned Reinsurance Premiums for the year is presented as Increase in Reserve for Unearned Reinsurance Premiums in the income statements.

10. OTHER ASSETS

The Other Assets account includes the following:

	<u>2008</u>	<u>2007</u>
Investment property	P 38,575,009	P 40,905,056
Input value-added tax (VAT)	31,352,419	29,638,591
Creditable expanded withholding tax	16,774,651	5,297,029
Deferred withholding VAT	13,382,875	39,308,468
Prepayments	3,196,500	1,515,877
Deposit	573,907	690,392
Security fund	192,888	192,888
Others	<u>5,395,837</u>	<u>5,075,072</u>
	<u>P 109,444,086</u>	<u>P 122,623,373</u>

Investment property consists of a piece of land and building and improvements which are owned for investment purposes only.

The changes to the carrying amounts of the investment property can be summarized as follows as of December 31:

	<u>Note</u>	<u>2008</u>	<u>2007</u>
Balance at beginning of year		P 40,905,056	P 55,303,206
Depreciation charge for the year	14	(2,330,047)	(2,330,047)
Disposals		<u>-</u>	<u>(12,068,103)</u>
Balance at end of year		<u>P 38,575,009</u>	<u>P 40,905,056</u>

The estimated fair value of the building and improvements included in investment property is P39,690,000 while the related carrying value is P35,177,209. Rental income earned from investment property amounted to P 1,623,000 and P1,163,890 in 2008 and 2007, respectively, and is recorded as part of dividend and other income under Investment and Other Income account in the income statements (see Note 12).

There is no active market or recent market transaction for the investment in land. However, management believes that the carrying amount of this property is a reasonable approximation of its fair value.

Input VAT pertains to input valued-added taxes on commissions paid to ceding companies.

Prepayments include substantially prepaid insurance on property and equipment and group life insurance.

Deferred withholding VAT represents unapplied input taxes resulting from unpaid premiums on ceded out transactions.

Security fund represents amount deposited with the IC, as required by the Insurance Code, to be used for the payment of valid claims against insolvent insurance companies. The balance of the fund earns interest at rates determined by the IC annually.

11. ACCOUNTS PAYABLE AND ACCRUED EXPENSES

This account includes the following:

	<u>Note</u>	<u>2008</u>	<u>2007</u>
Defined benefit liability	15.2	P 28,897,908	P 34,507,695
Accrued expenses		12,175,498	3,557,009
Accounts payable and other liabilities		2,523,962	1,328,698

		<u>P 45,463,886</u>	<u>P 42,890,121</u>

Management considers the carrying amounts of accounts payable and accrued expenses recognized in the balance sheets to be a reasonable approximation of fair value due to their short duration.

12. INVESTMENT AND OTHER INCOME

The details of this account follow:

	Notes	2008	2007	2006

13. UNDERWRITING DEDUCTIONS

13.1 Share in Claims and Losses

This account represents the aggregate amount of the Company's share in net losses and claims relative to its acceptances under treaty and facultative reinsurances.

13.2 Commissions - net

This account consists of the following:

	2008	2007	2006
Commission expense	P 755,748,687	P 410,837,745	P 574,122,238

15.2 Employee Retirement Benefit Obligation

The Company maintains a wholly-funded, tax-qualified, noncontributory retirement plan that is being administered by a trustee covering all regular full-time employees. Actuarial valuations are made regularly to update the retirement benefit costs and the amount of contributions.

The amounts of retirement benefit obligation (presented as part of Accounts Payable and Accrued Expenses – see Note 11) recognized in the balance sheets are determined as follows:

	<u>2008</u>	<u>2007</u>	<u>2006</u>
Present value of the obligation	P 129,757,565	P 62,132,830	P 51,174,809

Balance at end of year	<u>P 32,808,081</u>	<u>P 30,090,823</u>	<u>P 19,836,800</u>

The plan assets as of December 31, 2008 consist of cash and cash equivalents amounting P10,960,386; government securities amounting P21,170,950; loans and receivables amounting P278,357 and; equity securities amounting P398,388.

Actual return on plan assets was nil in 2008.

The amounts of retirement expense recognized in the income statements are as follows:

	<u>2008</u>	<u>2007</u>	<u>2006</u>
Current service costs	P 7,107,298	P 5,150,951	P 5,173,501
Interest costs	4,349,298	5,807,070	6,622,394

	<u>P 9,049,330</u>	<u>P 4,124,115</u>	<u>P 35,601,366</u>

For determination of the retirement benefit obligation, the following actuarial assumptions were used:

	<u>2008</u>	<u>2007</u>	<u>2006</u>
Discount rates	9%	7%	11%
Expected rate of return on plan assets	8%	8%	8%
Expected rate of salary increase	8%	6%	8%

Assumptions regarding future mortality and disability are based on published statistics and mortality and disability tables. The discounts rates assumed are based on the yield of long-term government bonds as of the valuation dates as published by the Philippine Dealing and Exchange Corporation (PDEX), approximating the average expected future working lifetime of employees.

The overall expected long-term rate of return on plan assets assumed at 8% is based on a reputable fund trustee's indicative yield rate for a risk portfolio similar to that of a fund with consideration to the fund's past performance.

Presented below are the historical information related to the present value of the retirement benefit obligation, fair value of plan assets and excess or deficit in the plan.

The Company has NOLCO in 2008 amounting to P340,524,979 which can be used as deduction against taxable income until 2011. However, the Company recognized the corresponding deferred tax asset relating to this NOLCO only to the extent that it expects to have sufficient taxable profit that will be available against which the NOLCO can be utilized. Of the total deferred tax asset for this NOLCO amounting to P102,157,494 only P59,665,559 was recognized in 2008. The Company's NOLCO in 2006 of P375,098 was claimed as deduction against the 2007 taxable income.

The Company is subject to MCIT which is computed at 2% of gross income, as defined under the tax regulations. No MCIT was recognized in 2008 as the Company incurred a gross loss. No MCIT was recognized also in 2007 as the RCIT was higher than MCIT. In 2006, MCIT was recognized amounting to P3,325,133, of which P184,964 is still unutilized and can be claimed as deduction against RCIT up to 2009. The Company's MCIT incurred in previous years totaling P4,160,338 was claimed as deduction against the 2007 RCIT.

Effective July 2008, Republic Act No. 9504 was approved giving corporate taxpayers an option to claim itemized deduction or optional standard deduction (OSD) equivalent to 40% of gross income. Once the option to use OSD is made, it shall be irrevocable for the taxable year for which the option was made. In 2008, the Company opted to continue claiming itemized standard deductions.

17. EQUITY

17.1 Capital Stock

The Company is authorized to issue 3,000,000,000 shares of common stock with a par value of P1 per share.

To consummate the merger in 2006, the Company issued 5,885,583 shares of capital stock in order to acquire the net assets of UMRC (see Note 1).

17.2 Stock Split

On January 15, 2007 the SEC approved the amended articles of incorporation of the Company which includes the reduction of the par value of the Company's shares of stock from P100 to P1 per share. The reduction of the par value effectively increased the number of shares that are issued as of the beginning of the year from 15,885,583 to 1,588,558,300.

17.3 Treasury Shares

In 2006, the Company reacquired the shares held by UMRC and the dissenting stockholders equivalent to 1,020,652 shares at a total cost of P254,465,509 (see Note 1).

In 2007, additional 46,354,200 shares were reacquired by the Company at a total cost of P103,430,976. Included on these shares are the reacquisitions of 446,774 shares from dissenting stockholders.

All treasury shares with a total cost of 358,070,611 were eventually reissued in 2007.

In August 2008, the BOD approved the implementation of the Company's Buy-Back Program in order to enhance overall shareholder value and show that it has a strong financial position. In October 2008, the Company reacquired 22,277,000 shares at a total cost of P40,081,811.

17.4 Revaluation Reserves

The reconciliation of Revaluation Reserves is as follows:

	Available-for-sale Financial Assets	Related Deferred Tax	Total

17.5 Appropriation for Contingencies

On April 18, 1989, the Company's BOD approved the establishment of a special reserve which will serve as cushion to the paid-up capital in the event of extraordinarily high loss occurrences or severe catastrophic losses. The amount of P5,000,000 was initially appropriated from retained earnings for this purpose on April 30, 1989. Subsequently, at December 31 of each year where there is profit, 10% of such profit shall be set aside as additional reserve for contingencies. The reserve balance, which is shown as Appropriated under Retained Earnings account in the statements of changes in equity, should not exceed, at any time, the amount of paid-up capital. The balance of appropriation for contingencies amounted to P221,334,777 and P211,890,435 as of December 31, 2008 and 2007, respectively.

17.6 Declaration of Cash Dividends

The BOD approved the declaration of cash dividends of P0.20 per share (or a total of P436,390,920) on March 25, 2008 and P0.07 per share (or a total of P152,736,822) on June 19, 2007, payable to stockholders of record as of April 10, 2008 and July 16, 2007, respectively. The dividends were paid within their respective year of declaration and approval.

18. RELATED PARTY TRANSACTIONS

The Company's related parties include its principal stockholders, the Company's key management personnel and other related parties with which the Company had transactions as described below.

18.1 Reinsurance Contracts with Related Parties

The Company accepts and cedes insurance business under various reinsurance contracts with related parties. The details of which follow:

	<u>2008</u>	<u>2007</u>
Premiums	P 1,769,510,024	P1,891,455,734

Short-term benefits	P 61,642,735	P 43,287,218	P 32,365,020
Post-employment benefits	<u>2,238,886</u>	<u>1,948,613</u>	<u>970,130</u>
	<u>P 63,881,621</u>	<u>P 45,235,831</u>	<u>P 33,335,150</u>

19. MARGIN OF SOLVENCY

Under the Insurance Code of the Philippines, a non-life insurance company doing business in the Philippines shall maintain at all times a margin of solvency equal to P500,000 or 10% of the total amount of its net premiums written during the preceding year, whichever is higher. The margin of solvency shall be the excess of the value of its admitted assets (as defined under the same code), exclusive of its paid-up capital, over the amount of its liabilities, unexpired risks and reinsurance reserves.

The final amount of the margin of solvency can be determined only after the accounts of the Company have been examined and classified as to admitted and nonadmitted assets, as defined in the Insurance Code of the Philippines, by the IC.

20. RECONCILIATION OF NET INCOME UNDER PFRS TO STATUTORY NET INCOME

The reconciliation of net income under PFRS and statutory net income follows:

	<u>2008</u>	<u>2007</u>	<u>2006</u>

	<u>P 0.04</u>	<u>P 0.31</u>	<u>P 0.20</u>

Diluted earnings per share is not determined since the Company does not have dilutive shares as of December 31, 2008, 2007 and 2006.

22. COMMITMENTS AND CONTINGENCIES

The following are the significant commitments and contingencies involving the Company:

22.1 Operating Lease Commitments – Company as Lessee

The Company is a lessee under a non-cancellable operating lease covering one of its offices. This lease was initiated during 2007 and has a term of two years, with renewal options, and includes an annual escalation rate of 8% on the second year. The contract was renewed on February 24, 2009. The future minimum rentals payable under this non-cancellable operating lease as of December 31 are as follows:

	<u>2008</u>	<u>2007</u>
Within one year	P 882,771	P 866,423
After one year but not more than five years	<u>1,147,602</u>	<u>220,693</u>
	<u>P 2,030,373</u>	<u>P 1,087,116</u>

22.2 Legal Claims

The Company is a defendant in a third party claim filed by a government agency against the Company and other reinsurers. Management believes that the reserve set up relating to this case is adequate to cover any liability that may arise from the ultimate outcome of the case.

23. RISK MANAGEMENT OBJECTIVES AND POLICIES

The Company is exposed to a variety of financial risks which result from both its operating and investing activities. The Company's main risk mitigation strategies generally include adoption of underwriting and investment policies and guidelines, annual budget provision and internal audit checks and assessments.

The Company's risk management, in close cooperation with the respective duly constituted Board Committees on Underwriting, Investment, Budget and Audit, focuses on implementing risk control measures addressing underwriting acceptances, claims control, securing short- to-medium term cash flows by minimizing exposure to financial markets while managing long-term financial investments to generate lasting returns.

The most significant financial risks to which the Company may be exposed to are described below.

23.1 Reinsurance Risk

As a professional reinsurer, the Company underwrites reinsurance business from life and non-life insurance companies and brokers, with the objective of realizing profits and being a dependable partner to its clients. To attain this objective, it is essential for the Company to have a balanced portfolio, wherein there is diversification of risks. For non-life business, each risk that is accepted or treaty arrangement entered into is carefully evaluated based on the Company's underwriting guidelines, such as maximum limits per type of risk, existing exposures, premium adequacy, financial condition of the client and the like.

The Company's retention on the larger risks that the Company accepts, or possible accumulation of the same in a given area, including losses that could arise from catastrophes such as earthquakes and typhoons, is protected by an excess of loss coverage to limit the Company's exposure up to a specified amount. Significant risk concentrations may result in potential losses not only in certain areas but also within a particular type of business such as property, motor car and casualty. The Company therefore always monitors and controls its exposures in various lines.

The Company's reinsurance and retroceded premiums for the year ended December 31, 2008 per line of risk are shown below.

<u>Line of Risk</u>		<u>Reinsurance Premiums</u>		<u>Retroceded Premiums</u>		<u>Retention</u>
Fire	P	944,039,580	P	593,294,587	P	350,744,993
Marine and aviation		784,010,071		262,731,015		521,279,056
Casualty		2,254,804,278		1,823,281,187		431,523,091
Life		510,650,466		234,240,131		276,410,335
		<u>P 4,493,504,395</u>		<u>P 2,913,546,920</u>		<u>P 1,579,957,475</u>

The Company's reinsurance and retroceded premiums for the year ended December 31, 2007 per line of risk are shown below.

<u>Line of Risk</u>		<u>Reinsurance Premiums</u>		<u>Retroceded Premiums</u>		<u>Retention</u>
Fire	P	1,387,159,988	P	1,034,189,507	P	352,970,481
Marine and aviation		439,163,859		197,208,733		241,955,126
Casualty		2,042,102,760		1,660,547,509		381,555,251
Life		448,155,846		197,281,824		250,874,022
		<u>P 4,316,582,453</u>		<u>P 3,089,227,573</u>		<u>P 1,227,354,880</u>

Retrocession or reinsuring what the Company had earlier accepted as reinsurance is resorted to enable the Company to write risk whose amounts are in excess of its retention, and to reduce the volatility of its results and protect its capital. In doing so, the Company also sets minimum requirements and standards in determining with whom it wishes to reinsure with, foremost of which is the rating of the particular security by international rating agencies such as Standard and Poor's and A.M. Best.

On the other hand, life business, which constitutes about 10% of gross premium written, follows a schedule of retention per life or group life as determined by the actuarial department. Any amount in excess of this is retroceded or reinsured with reputable foreign reinsurers whose ratings from the same rating agencies are above par and meet the Company's standards.

The Company has also initiated an Enterprise Risk Management Process which is an organization-wide approach to the identification, assessment, communication and management of risks. Reinsurance Activity Risks is one of the four different types of risks identified in this program. The management believes that the Enterprise Risk Management Process, once fully integrated into the Company's operations, would further enhance the confidence of investors and clients in the Company.

Also, the Company continues to practice prudent underwriting with the objective of attaining underwriting profits. In evaluating a claim, the Company follows set guidelines such as setting up of reserves upon its receipt of a preliminary loss advice, and requiring the cedant-claimant to submit other necessary documents such as the adjuster's report, affidavits and proof of loss, among others.

The Company's outstanding claims and the retrocessionaires' share in such claims as of December 31, 2008 are shown below:

<u>Line of Risk</u>		<u>Outstanding Claims</u>		<u>Retrocessionaires' Share in Claims</u>		<u>Net</u>

		<u>P 1,628,313,780</u>		<u>P 1,036,459,337</u>		<u>P 591,854,443</u>

The Company ensures that all valid claims are settled promptly and judiciously, as part of its commitment to its clients.

Most of the risks reinsured by the Company are situated in the domestic market with only a small portion coming from overseas.

23.2 Credit Risk

Generally, the maximum credit risk exposure of financial assets is the carrying amount of the financial assets as shown on the face of the balance sheets (or in the detailed analysis provided in the notes to the financial statements), as summarized below:

	<u>Notes</u>	<u>2008</u>	<u>2007</u>
Cash and cash equivalents		P 1,138,523,219	P 1,344,872,579
Reinsurance balances

financial assets	6	5,284,585,889	5,217,539,378
Loans and receivables	7	<u>195,738,148</u>	<u>193,990,002</u>
		<u>P 10,972,251,876</u>	<u>P 9,665,237,979</u>

The Company continuously monitors defaults of ceding companies and other counterparties, identified either individually or by group, and incorporate this information into its credit risk controls. Where available at a reasonable cost, external credit ratings and/or reports on ceding companies and other counterparties are obtained and used. The Company's policy is to deal only with creditworthy counterparties. In addition, for a significant proportion of sales, advance payments are received to mitigate credit risk.

The Company's management considers that all the above financial assets that are not impaired or past due for each balance sheet dates are of good credit quality.

Cash in banks and time deposits are insured by the Philippine Deposit Insurance Corporation up to a maximum coverage of P250,000 for every depositor per banking institution. Other financial assets are not secured by any collateral or other credit enhancements.

Financial assets amounting to P686,668,863 and P527,031,353 as of December 31, 2008 and 2007, respectively, are past due but not impaired.

23.3 Liquidity Risk

The Company manages its cash and investment position to meet its obligations arising from reinsurance agreements and other financial liabilities. Currently, the Company's excess cash is invested in available for sale financial assets.

As of December 31, 2008, the Company's obligations arising from reinsurance agreements and other financial liabilities have contractual maturities which are presented below:

	<u>Current</u>	<u>Non-current</u>
Reinsurance balances payable	P3,841,246,415	P 864,389,122
Accounts payable and accrued expenses	<u>16,565,978</u>	<u>28,897,908</u>
	<u>P3,857,812,393</u>	<u>P 893,287,030</u>

This compares to the maturity of the Company's financial liabilities as of December 31, 2007 as follows:

	<u>Current</u>	<u>Non-current</u>
Reinsurance balances payable	P2,439,453,963	P 231,736,490
Accounts payable and accrued expenses	<u>8,382,427</u>	<u>34,507,694</u>
	<u>P2,447,836,390</u>	<u>P 266,244,184</u>

23.4 Market Risk

The market risks to which the Company may be exposed are as follows:

(a) Foreign Currency Risk

Most of the Company's transactions are carried out in Philippine pesos, its functional currency. Exposures to currency exchange rates arise from the dollar-denominated investments, receivables and payables. The Company recognized net foreign exchange gains of P115,273,826 in 2008 and net foreign exchange losses of P179,320,898 in 2007 and P90,676,616 in 2006 (see Note 12).

Exposures to currency exchange rates arise from the Company's foreign currency reinsurance transactions, which are primarily denominated in US dollars, Indonesian rupiah, South Korean won, Pakistan rupee, Japanese yen, Thailand baht, China yuan, Nepalese rupee, Euro, Indian rupee, Malaysian ringgit, Myanmar kyat, Singaporean dollars, Hongkong dollars, Sri Lankan rupee, British pound, Australian dollars and Swiss franc. The Company also holds US dollar-denominated cash and cash equivalents and investment in equity securities.

To mitigate the Company's exposure to foreign currency risk, non-Philippine peso cash flows are monitored.

Foreign-currency denominated financial assets and liabilities, translated into Philippine pesos at the closing rate are as follows:

	<u>2008</u>		<u>2007</u>	
	<u>U.S. Dollar</u>	<u>Other Currencies</u>	<u>U.S. Dollar</u>	<u>Other Currencies</u>
Financial assets	P 1,529,236,678	P 180,140,323	P 1,290,440,554	P 74,221,140

The following table illustrates the sensitivity of the Company's income before tax with respect to changes on Philippine peso against foreign currencies exchange rates. The percentage changes in rates have been determined based on the average market volatility rates, using standard deviation, in the previous 12 months at a 99% confidence level.

Exposures to foreign exchange rates vary during the year depending on the volume of overseas transactions. Nonetheless, the analysis above is considered to be representative of the Company's currency risk.

(b) *Market Price Risk*

The Company's investments are regulated under the pertinent provisions of Presidential Decree No. 1460 (as amended), otherwise known as The Insurance Code of the Philippines. The Insurance Code generally requires all insurance companies to obtain prior approval of the IC for any and all of their investments. It further requires companies to submit to the Commission a monthly report on all investments made during the previous month. The Commission reviews the investments and may require the immediate sale or disposal of investments deemed too risky.

In the area of equity investments, Section 200 of the Insurance Code further provides, among other things, that insurance companies may only invest in common stock of Philippine corporations which have a prior three-year dividend payment record.

Moreover, the same section limits exposure to any one institution to 10% of an insurer's total admitted assets.

Beyond the provisions of the Insurance Code, the Company, through its Investment Committee, has established additional guidelines to control the risks inherent in equity investments. The Company's own investment policy requires that the Company invest only in shares of common stock of companies that are listed on the PSE. Furthermore, these listed companies must have profitable business operations and market capitalizations which are on a scale that would qualify them as blue chips.

The Investment Committee regularly reviews and approves a list of publicly traded stocks authorized for investments on the basis of the foregoing considerations. Furthermore, the Investment Committee seeks to avoid unwarranted concentration of funds in a single asset class by regularly monitoring and limiting the proportion of equity investments to the Company's total investment portfolio. As of December 31, 2008 and 2007 investments in listed equities amounted to 6% and 12%, respectively, of the Company's total investment portfolio.

The observed volatility rates of the fair values of the Company's investments held at fair value and their impact on the Company's net income and equity as of December 31, 2008 and 2007 are summarized as follows:

	2008		2007

* No data on the market values of these club shares were available.

(c) *Interest Rate Risk*

The Company is exposed to interest rate risk because of its fixed income investments which amounted to approximately 92% and 84% of the Company's total investment portfolio as of December 31, 2008 and 2007, respectively. The Company attempts to limit interest rate risk by establishing limits on the duration and average maturity of its fixed income portfolio. As a general rule, the Company does not attempt to speculate (i.e., profit from short term changes or volatility in market conditions). Investments in fixed income securities are made primarily to ensure adequate cash flow from investments to meet cash requirements, both anticipated and unanticipated. Consequently, the investment portfolio is structured so that instruments mature concurrently with cash needs. Moreover, the investments in fixed income securities are limited to those with active secondary or resale markets to allow for transparent valuation and immediate liquidation in the event of market turmoil.

25. CAPITAL MANAGEMENT OBJECTIVES, POLICIES AND PROCEDURES

The Company's capital management objectives are:

- to ensure the Company's ability to continue as a going concern; and
- to provide an adequate return to shareholders

by complying with the capital requirements and limitation enforced by the IC and by aligning the Company's operational strategy to its corporate goals. The capital requirements and limitation are as follows:

25.1 Minimum Capitalization

Under the Department Order No. 27-06 (DO No. 27-06), any reinsurance company existing, operating, or otherwise doing business in the Philippines, must possess minimum capitalization in accordance with the following schedule of compliance:

	December 31, 2008	December 31, 2007
Minimum statutory net worth	P 1,250,000,000	P 1,000,000,000
Minimum paid-up capital	625,000,000	500,000,000

As defined by DO No. 27-06, statutory net worth represents the Company's paid-up capital, capital in excess of par value, contingency surplus, retained earnings, and revaluation increments as may be approved by the Insurance Commissioner.

25.2 Risk-Based Capital Requirements

As per Insurance Memorandum Circular No. 7-2006, every non-life insurance company is annually required to maintain a minimum Risk-Based Capital (RBC) ratio of 100%. RBC ratio is computed by dividing the Company's net worth by an RBC requirement prescribed by the IC. The RBC requirement is determined after considering the admitted value of certain financial statement accounts whose final amounts can be determined only after the examination by the IC.

25.3 Limitation on Dividend Declaration

The Company's BOD is authorized to declare dividends. A cash dividend declaration does not require any further approval from the stockholders. However, a stock dividend declaration requires further approval of the stockholders holding or representing not less than two-thirds of the Company's outstanding capital stock. Dividends may be declared and paid out of the unrestricted retained earnings which shall be payable in cash, property, or stock to all stockholders on the basis of outstanding stock held by them, as often and at such times as the BOD may determine and in accordance with law.

Section 195 of the Insurance Code provides that a domestic insurance company shall declare or distribute dividends on its outstanding stock only from profits remaining on hand after retaining unimpaired:

- the entire paid-up capital stock;
- the margin of solvency required;
- the legal reserve fund required; and
- a sum sufficient to pay all net losses reported or in the course of settlement and all liabilities for expenses and taxes.

The Company is required to report such dividend declaration or distribution to the IC within 30 days from the date of such declaration.

Moreover, the SEC, through its Memorandum Circular 11 dated December 5, 2008 has set guidelines in determining the appropriate amount of Retained Earnings available for dividend distribution. This shall be based on the net income for the year based on the audited financial statements, adjusted for unrealized items which are considered not available for dividend declaration. These unrealized items consist of the following:

- share/equity in net income of the associate or joint venture
- unrealized foreign exchange gains, except those attributable to cash and cash equivalents
- unrealized actuarial gains arising from the exercise of the option of recognizing actuarial gains or losses directly to the income statement
- fair value adjustment arising only from marked-to-market valuation which are not yet realized
- the amount of deferred tax asset that reduced the amount of income tax expense
- adjustment due to deviation from PFRS/Generally Accepted Accounting Principles which results to gain
- other unrealized gains or adjustments to the retained earnings

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations, 1st Quarter

Results of Operations

Reinsurance Premium Income

Reinsurance premiums for the three months ended March 31, 2009 increased by 13.6% to P824M from P726M for the three months ended March 31, 2008. Major sources of premium growth during the period included the life and casualty lines. Notwithstanding the growth in gross premiums, net premiums retained in the first quarter of 2009 decreased by 2.9% to P336 million from P346 million during the comparable period in 2008. The lower retention ratio of 41% during 1st Qtr. 2009, compared to 48% during 1st Qtr. 2008, was due to the Company's adopting more conservative underwriting standards in reaction to a higher level of claims and losses in prior underwriting years.

Premiums earned increased by 11.7%, from P320 million to P357 million due to a decrease of P 21.2 million in the reserve for unexpired risk during 1st Qtr. 2009. In 1st Qtr. 2008, the reserve for unexpired risk increased by P26.2 million after application of the 24th method of recognizing reinsurance premiums.

Underwriting Deductions

Share in claims and losses amounted to P462 million in 1st Qtr. 2009 as against P160 million in 1st Qtr. 2008, an increase of P301 million or 188.2%. The majority of claims booked during the quarter were from loss events occurring in the 2008 underwriting year which resulted from a series of catastrophic events (e.g. typhoon, flood). Underwriting results were also negatively affected by losses in the Company's foreign marine hull business. While the Company's life and casualty reinsurance businesses generated positive underwriting results for 1st Qtr. 2009, these were not sufficient to offset negative performance in the fire and marine lines. Consequently, the Company's overall loss ratio increased to 129% in 1st Qtr. 2009 from 50% in 1st Qtr. 2008.

Net commissions increased by P38.9 million or 79.3% in 1st Qtr. 2009 compared to 1st Qtr. 2008, due to the higher level of retroceded premiums. Commission ratio thus increased from 14% in 1st Qtr. 2008 to 26% in 1st Qtr. 2009.

Investment and Other Income

Investment and other income in 1st Qtr. 2009 increased by 43.5% to P124 million from P86 million in 1st Qtr. 2008. The growth was largely due to increases in trading and foreign exchange gains even as interest income grew by only 1.7% during the period. Trading gains resulted from a more favorable market environment while the foreign exchange gains resulted from the depreciation of the Philippine Peso vis-à-vis the U.S. Dollar. The Company maintains a certain portion of its investible funds in U.S. Dollars.

General and Administrative Expenses

General and administrative expenses increased by 16.3% to P39.4 million in 1st Qtr. 2009 from P33.9 million in 1st Qtr. 2008, primarily because of manpower and travel-related marketing expenses. Manpower costs were affected by salary adjustments made during the second half of 2008 as well as by the hiring of temporary contractual labor.

Provision for Income Tax

Tax expense for the 1st Qtr. 2009 was 88% lower than the 1st Qtr. 2008 because of the underwriting loss for 1st Qtr. 2009. Tax expense of 1st Qtr. pertains only to final tax on investment income.

Net Income (Loss)

The Company showed a net loss of P124 million in the 1st Qtr. 2009 as against net income of P110 million in the 1st Qtr. 2008.

Financial Condition

Total resources as of end 1st Qtr. 2009 stood at P11.7 billion, P575 million or 4.7% lower than the total assets of P12.3 billion as of December 31, 2008. Material changes in the company's resources are described below:

- **Cash and cash equivalents (P1,125M vs. P1,149M)**

Cash and cash equivalents declined by P24.1 million due to settlement of certain reinsurance balances payable during the 1st Qtr. 2009.

- **Reinsurance balances receivable-net (P3,873M vs. P4,353M)**

Reinsurance balances receivable declined by P481 million or 11% due to collections received for the 1st Qtr. 2009.

- **Available-for-sale financial assets (P5,439M vs. P5,285M)**

Available for sale financial assets (AFS) increased by P154 million or 2.9% due to maturities of time deposit which were shifted to AFS financial assets.

- **Loans and Receivables (P139M vs. P196M)**

Loans and receivables declined by P56 million or 28.8% mainly due to collection of accrued interest income (P47 million).

- **Property and Equipment, net (P85M vs. P86M)**

Property and equipment, net of accumulated depreciation amounted to P85 million, a slight decrease of P1.5 million or 1.8%, mainly due to recorded depreciation for the period of P2 million and retirement of various company assets (P.5 million)

- **Deferred Acquisition Cost (P182M vs. P201M) and Deferred Reinsurance Premium (P688M vs. P827M)**

Applying the 24th method of revenue recognition, deferred acquisition cost and deferred reinsurance premium decreased by P18.1 million or 9% and P140 million or 17% respectively, reflecting portions of reinsurance premiums written as of December 31, 2008 that were earned as of March 31, 2009.

- **Deferred Input Value Added Tax (P57M vs. P64M)**

Deferred input value added tax decreased by P7 million or 11% due to payment of VAT payable as of 1st Quarter 2009.

- **Other Assets (P108M vs. P109M)**

Other assets were at P108 million as of 1st Qtr. 2009, P1 million lower than 2008 figure of P109 million due to recorded depreciation on investment properties (P0.6 million).

Liabilities (P5,862M vs. P6,322M)

Total liabilities decreased by P460 million or 7.3% from P6.3 billion to P5.9 billion in 1st Qtr. 2009. The decrease in total liabilities is explained below:

- **Reinsurance balances payable (P4,469M vs. P4,706M)**

Reinsurance balances payable decreased by P237 million or 5% from P4,706 million at year end 2008 to P4,469 million in 1st Qtr. 2009 mainly due to settlement of certain reinsurance balances payable.

- **Accounts payable and accrued expenses (P34M vs. P45M)**

Payment of withholding taxes and expenses brought down the balance of accounts payable and accrued expenses by P11 million or 25.3% as of 1st Qtr. 2009.

- **Reserve for Unearned Reinsurance premium (P1,192M vs. P1,353M) Deferred Reinsurance Commission (P95M vs. P108M)**

Reserve for unearned reinsurance premium and deferred reinsurance commission decreased by P161 million or 11.9% and P14 million or 12.6%, respectively. During the 1st Qtr. 2009, as portions of deferred reinsurance premiums at year end 2008 are deemed earned under the 24th method of revenue recognition, there is a corresponding reduction in the associated reserve for unearned reinsurance premium and deferred reinsurance Commission

• **Deferred Output Value Added Tax (P72M vs. P109M)**

Deferred output value added tax decreased by P37 million or 33.8% to P72 million as of 1st Qtr. 2009 from P109 million at year end 2008 due to payment of VAT payable as of 1st Qtr. 2009.

• **Equity (P5,835M vs. P5,950M)**

Stockholders equity decreased by P114.9 million or 1.93% to P5.835 billion from P5.950 billion at year end 2008 due to net loss of P124 in 1st Qtr. 2009.

Balance at end of quarter-Mar. 31, 2009	P 687,624,920	P 1,192,232,151

Deferred Reinsurance Premiums pertain to the portion of reinsurance premiums ceded out that relate to the unexpired periods of the policies at balance sheet date.

Reserve for Unearned reinsurance premiums is the portion of reinsurance premiums assumed that relate to the unexpired periods of the policies at balance sheet date.

The difference between the increase in Deferred Reinsurance Premiums and Reserve for Unearned reinsurance premiums for the year is presented as increase in Reserve for Unearned Reinsurance Premiums in the income statements.

8. Other Assets

The Other Assets account includes the following:

	March 2008	December 2007
Investment property	P 37,002,400	P 30,878,009

Others	5,007,002	5,395,837
P	107,046,407	P 109,444,086

Investment properties consist of condominium units and improvements which are owned for investment purposes only.

Deferred withholding VAT represents unapplied input taxes resulting from unpaid premiums on ceded out transactions.

Prepayments include substantially prepaid insurance on property and equipment and group life insurance.

Security fund represents amount deposited with the Insurance Commission (IC). The fund was created under Section 367 of Presidential Decree No. 612, as amended under Presidential Decree

No. 1640, to be used for the payment of valid claims against insolvent insurance companies. The balance of the fund earns interest at rates determined by the IC annually.

9. Accounts Payable and Accrued Expenses

This account includes the following:
